Mainspring Clockwork Earth 1 By Jay Lake:

Mainspring Jay Lake, 2024-09-04 Jay Lake's first trade novel is an astounding work of creation. Lake has envisioned a clockwork solar system where the planets move in a vast system of gears around the lamp of the Sun. It is a universe where the hand of the Creator is visible to anyone who simply looks up into the sky and sees the track of the heavens, the wheels of the Moon, and the great Equatorial gears of the Earth itself. *Mainspring* is the story of a young clockmaker's apprentice who is visited by the Archangel Gabriel. He is told that he must take the Key Perilous and rewind the Mainspring of the Earth. It is running down and disaster to the planet will ensue if it's not rewound. From innocence and ignorance to power and self-knowledge, the young man will make the long and perilous journey to the South Polar Axis to fulfill the commandment of his God. Bringing into dialogue the many perspectives on the genre, *The Routledge Companion to Science Fiction* is essential reading for anyone interested in the history and the future of science fiction and the way it is taught and studied.

Rejoin the adventure in the third novel of Lake's *Clockwork Earth* series. Paolina Barthes, young sorceress, is crossing the Equatorial Wall attempting to take herself and her magic away from the grasp of powerful men in the empires of the north. Emily Childress is still aboard the renegade Chinese submarine along with her devoted Captain and the British chief petty officer Angus al Wazir. They are all being sought most urgently by the powers that secretly rule the Northern Earth: the Silent Order and the White Birds. And a third power of the Southern Earth has its eye on Paolina; she will not be allowed to bring the political turmoil of the North into the more mystical South.
