Kalevipoeg Studies Cornelius Hasselblatt, 2016-01-02 The poem Kalevipoeg over 19 000 lines in length was composed by Friedrich Reinhold Kreutzwald 1803 1882 on the basis on folklore material It was published in an Estonian German bilingual edition in six instalments between 1857 and 1861 it went on to become the Estonian national epic This first English language monograph on the Kalevipoeg sheds light on various aspects of the emergence creation and reception of the text The first chapter sketches the objectives of the book and gives a short summary of the contents of the twenty tales of the epic while the second chapter treats the significance of the epic against the cultural background of nineteenth century Estonia The third chapter scrutinizes the emergence of the text in more detail and in its second part takes a closer look at the many intertextual connections and the traces the epic material has left in Estonian literature up to the present time The fourth chapter is a detailed case study of one debated passage of the fifteenth tale The fifth and the six chapters deal with the German reception of the epic which partly took place earlier than the reception in Estonia In the fifth chapter the first reviews and an early treatise by the German scholar Wilhelm Schott 1863 are discussed The sixth chapter presents the new genre of rewritings of the epic texts which cannot be labelled as translations but are rather new creations on the basis of Kreutzwald s text In the seventh chapter several versions of these retellings and adaptations are compared in order to show the stability of some core material conveyed by various authors A concluding chapter stresses the significance of foreign reception in the canonization process of the Kalevipoeg At the end a comprehensive bibliography and an index are added
