Memento Radek John, 1986 **The Politics of Gender Culture under State Socialism** Hana Havelková, Libora Oates-Indruchová, 2014-02-03 Though there has been much research on the incomplete emancipation project of state socialism in East and Central Europe very little has been published on how the state and its institutions conceived of gender as a concept This book seeks to understand if and how this conceptualization developed in the second half of the twentieth century and what impact it had on everyday life and on culture This study moves beyond the dichotomous gender perspectives and towards a nuanced understanding of the diverse discursive negotiations agendas actors and agency involved in state socialist gender practices Including a detailed case study on Czechoslovakia contributors explore these issues in a series of independent but collaboratively developed studies placing their research in the context of other East Central European countries The studies collected in the volume bring to light fresh material and consider it from the combined perspective of current gender theory and internal ideological dynamics of state socialism breaking new ground in gender theory cultural theory and studies of state socialism This book will be of interest to students and scholars of gender studies socialism Cold War politics and Eastern European politics and culture *Fatherhood in Late Modernity* Mechtild Oechsle, Ursula Müller, Sabine Hess, 2012-08-09 Changes in Fatherhood How do structural changes in the welfare state in gender relations and work affect concepts and realities of fatherhood The authors analyse cultural images and representations of fatherhood varieties of fatherhood in relation to social backgrounds organisational influences as well as the impact of political and legal interventions on configurations of fatherhood With an interdisciplinary approach this book's contributions investigate the sometimes contradictory relationship between cultural representations and social practices of fatherhood They contextualise diverse fatherhoods in various social backgrounds ethnicities ages and different national contexts Reflecting methodological challenges is crucial to the volume's approach Which parameters are used to quantify change Which links and interactions between cultural individual organizational and societal dimensions do exist regarding the development of new social configurations of fatherhood How can the complex interaction between structural constraints and agency be analysed Can certain agents of change be identified How can social change be conceptualized This volume links to international comparative research and shows how fruitful it can be to break disciplinary boundaries *Cold War Books in the 'Other' Europe and What Came After* Jiřina Šmejkalová, 2010-11-19 Drawing on analyses of the socio cultural context of East and Central Europe with a special focus on the Czech cultural dynamics of the Cold War and its aftermath this book offers a study of the making and breaking of the centrally controlled system of book production and reception It explores the social material and symbolic reproduction of the printed text in both official and alternative spheres and patterns of dissemination and reading Building on archival research statistical data media analyses and in depth interviews with the participants of the post 1989 de centralization and privatization of the book world it revisits the established notions

of censorship and revolution in order to uncover people's performances that contributed to both the reproduction and erosion of the old regime

The Greengrocer and His TV Paulina Bren, 2011-08-15 The 1968 Soviet invasion of Czechoslovakia brought an end to the Prague Spring and its promise of socialism with a human face. Before the invasion, Czech reformers had made unexpected use of television to advance political and social change. In its aftermath, Communist Party leaders employed the medium to achieve normalization, pitching television stars against political dissidents in a televised spectacle that defined the times. *The Greengrocer and His TV* offers a new cultural history of communism from the Prague Spring to the Velvet Revolution that reveals how state-endorsed ideologies were played out on television, particularly through soap opera-like serials. In focusing on the small screen, Paulina Bren looks to the normalcy of normalization to the everyday experience of late communism. The figure central to this book is the greengrocer who, in a seminal essay by Václav Havel, symbolized the ordinary citizen who acquiesced to the communist regime out of fear. Bren challenges simplistic dichotomies of fearful acquiescence and courageous dissent to dramatically reconfigure what we know or think we know about everyday life under communism in the 1970s and 1980s. Deftly moving between the small screen, the street, and the Central Committee, and imaginatively drawing on a wide range of sources that include television shows, TV viewers' letters, newspapers, radio programs, the underground press, and the Communist Party archives, Bren shows how Havel's greengrocer actually experienced normalization and the ways in which popular television serials framed this experience. Now back by popular demand, socialist-era serials such as *The Woman Behind the Counter* and *The Thirty Adventures of Major Zeman* provide Bren with a way of seeing literally and figuratively Czechoslovakia's normalization and Eastern Europe's real socialism.

Gender and Power in Eastern Europe Katharina Blum, Gertrud Pickhan, Justyna Stypinska, Agnieszka Wierzbowska, 2020-10-31 This book explores the contradictory development of gender roles in Central and Eastern Europe, including Russia. In light of the social changes that followed the collapse of communism and the rise of new conservatism in Eastern Europe, it studies new forms of gender relationships and reassesses the status quo of female empowerment. Moreover, leading scholars in gender studies discuss how right-wing populism and conservative movements have affected sociopolitical discourses and concepts related to gender roles, rights, and attitudes, and how Western feminism in the 1990s may have contributed to this conservative turn. Mainly focusing on power constellations and gender, the book is divided into four parts: the first explores the history of and recent trends in feminist movements in Eastern Europe, while the second highlights the dynamics and conflicts that gained momentum after neoconservative parties gained political power in post-socialist countries. In turn, the third part discusses new empowerment strategies and changes in gender relationships. The final part illustrates the identities, roles, and concepts of masculinity created in the sociocultural and political context of Eastern Europe.

Women and Gender in Postwar Europe Joanna Regulska, Bonnie G. Smith, 2012-03-12 *Women and Gender in Postwar Europe* charts the experiences of women across Europe from 1945 to the present day. Europe at the end of World War II was

a sorry testimony to the human condition awash in corpses the infrastructure devastated food and fuel in such short supply From Soviet Union to the United Kingdom and Ireland the vast majority of citizens on whom survival depended in the postwar years were women This book charts the involvement of women in postwar reconstruction through the Cold War and post Cold War years with chapters on the economic social and political dynamism that characterized Europe from the 1950s onwards and goes on to look at the woman s place in a rebuilt Europe that was both more prosperous and as tension filled as before The chapters both look at broad trends across both eastern and western Europe such as the horrific aftermath of World War II but also present individual case studies that illustrate those broad trends in the historical development of women s lives and gender roles The case studies show difference and diversity across Europe whilst also setting the experience of women in a particular country within the broader historical issues and trends in such topics as work professionalization sexuality consumerism migration and activism The introduction and conclusion provide an overview that integrates the chapters into the more general history of this important period This will be an essential resource for students of women and gender studies and for post 1945 courses
