Nakajima-Okano,1985-08-01 After fifteen printings the Learn Japanese College Text series has been substantially revised The
incorporated revisions grew out of the authors decade and more of classroom experience Revisions were also made in
accordance with recommendations proposed by instructors who have used the Learn Japanese series The new edition which
reflects recent trends in language teaching continues to emphasize an integrated approach in which speaking hearing
reading and writing Japanese all contribute to the language learning process The most significant improvement is the
addition of Culture Notes to help clarify the sociolinguistic context in which the language is used Since Japanese modes of
communication are highly situational the student of Japanese needs to be made aware of the different contexts in which
speakers interact Culture Notes used in conjunction with Grammar Notes Dialogs and Useful Expressions show how an
understanding of cultural values and human relationships can enhance the student s mastery of language skills A new
approach to language learning is used throughout the revised edition The new sociolinguistic approach which encourages the
generation of discourse is integrated with the original pattern approach which encourages the generation of sentences Many
components of the first edition such as Sentence Patterns Grammar Notes and Reviews have been revised and or rearranged
The result is a clearer more natural and more functional presentation of the Japanese language The four volumes of Learn
