science and between literature and psychoanalysis have been among the most thriving areas for interdisciplinary study in recent years. Work in these open fields has taught us to recognize the interdependence of different cultures of knowledge and experience, revealing the multiple ways in which science, literature and psychoanalysis have been mutually enabling and defining as well as corrective and contestatory of each other. Inspired by Gillian Beer's path-breaking work on literature and science, this volume presents fourteen new essays by leading American and British writers. They focus on the evolutionary sciences in the nineteenth century, the early years of psychoanalysis from Freud to Ella Freeman Sharpe, and the modern development of the physical sciences. Drawing on recent debates within the history of science, psychoanalytic literary criticism, intellectual history and gender studies, the volume makes a major contribution to our understanding of the formation of knowledge. Among its recurrent themes are curiosity and epistemology, growth, maturity and coming of age, as structuring metaphors. Several essays focus especially on childhood, taxonomy, sleep and dreaming, and elusive knowledge, the physiology of truth and the gender politics of scientific theory and practice. The essays also reflect Beer's extensive influence as a literary critic, with close readings of works by Charlotte Brontë, Alfred Lord Tennyson, George Eliot, Thomas Hardy, Henry James, Oscar Wilde, H. G. Wells, Edith Ayrton, Zangwill, Charlotte Haldane, Virginia Woolf, George Orwell and Karin Boye.

Nordic Utopias and Dystopias Pia Maria Ahlbäck, Jouni Teittinen, Maria Lassén-Seger, 2022-11-24. The Nordic countries have long been subject to certain idealised, even utopian imaginaries, particularly with regard to images of pristine nature and the societal ideals of democracy, equality and education. On the other hand, such projections inevitably invite dissent, irony and intimations of the utopia's dark underside. Things may yet take or may have already taken a dystopic course. The present volume offers twelve contributions on utopias and dystopias in Nordic literature and culture. Geographically, the articles cover the Nordic countries of Denmark, Finland, Norway and Sweden, as well as the autonomous area of Greenland. Through the articles, varied subjects ranging from avant-garde literature and long poems to noir TV series, young adult fiction, popular historiography and political discourse in literature outside of Norden, the volume brings forth a historically rich, multi-layered picture of social, cultural and environmental imagination in the Nordic countries. *Nordic Utopias and Dystopias* is thus of interest not only to specialists in dystopian and utopian research, but more broadly to scholars of literature and culture and the political and social sciences, especially but not exclusively in the Nordic context. **"The Space of Words"** Jennifer

Miller Hoyer, 2014. Nelly Sachs (1891-1970) has long been regarded as one of the most significant Holocaust poets. Her conception of language and words as a landscape has been understood by scholars and critics as an exilic ersatz Heimat for the lost German homeland of a displaced poet. This reading, however, is based entirely on her postwar poems. Such an isolated approach to her complex body of work is increasingly historically problematic; it is also at odds with Sachs's generally cyclical poetic process. In *The Space of Words*, Jennifer Hoyer offers the first sustained critical analysis of Sachs's largely unanalyzed prewar poetry and prose, as well as the first analysis that examines structural and thematic ties between the prewar works.

and the Nobel Prize winning postwar poetry Through close readings of both Sachs s prewar and postwar works Hoyer reveals a diasporic rather than exilic conception of the landscape of language a position of constant wandering rather than static longing for return This diasporic poetics promotes the intellectual and linguistic power of the wanderer and opens new insights into Sachs s essential significance as a Holocaust poet and a twentieth century German Jewish writer wary of the link of literary language to geopolitics and the narrative of nations Jennifer M Hoyer is Assistant Professor of German at the University of Arkansas

Complete Poems Karin Boye,1994 Karin Boye is Sweden s greatest woman poet Born in 1900 she was a poet of ideas and wrote a powerful prophetic novel *Kallocain* Her involvement in the radical literary and artistic movement Clart during the 1920s led to her interest in psychoanalysis which influenced her literary work as well as her personal development during the latter years of her life Intellectually and emotionally she was far ahead of her time and her controversial writings included the novel *Crisis* in which she depicted the religious turmoil of her adolescence and her discovery of her own bisexuality David McDuff s edition shows Karin Boye moving from youthful idealism to a desperate quest In the early poems she is a tense modern spirit aroused to strenuous affirmations of absolute ethical loyalties but prone also to drift passively back into regions of the subconscious and the unconscious where mysterious natural forces take possession of the human spirit Her identification with nature s dark but knowing and fertile instincts becomes more complete in her later work in which serene nature symbolism is mixed with ominously strained elements Margaret Abenius s biography of Karin Boye is called *Afflicted by Purity* a line from one of her poems Her title captures the inner conflict at the heart of Karin Boye s poetry and the way she rose above shattering personal defeats to write with honesty clarity of vision and nobility of utterance Her poetry has a strenuously angular quality which reflects with naked candour the harsh realities of her tragic inner struggle which was eventually to lead to her suicide in 1941 Karin Boye is one of the trio of great Scandinavian women poets along with Edith S dergran and Mirjam Tuominen all three published in English by Bloodaxe Books
