P. O'Donohoe,Benedict O'Donohoe,2005 Published on the eve of the philosopher playwright's centenary this study offers a wide ranging re appraisal of Sartre's complete dramatic opus from the inaugural nativity play *Bariona* 1940 to the swan song chorus of *Armageddon* *Les Troyennes* 1965 It draws on a close reading of Sartre's writings in philosophy literature and criticism and provides an extensive survey of journalistic and academic reception Each play is situated in relation both to Sartre's intellectual evolution and to the broader historical context This is the first full length study in English for more than thirty years covering the whole of Sartre's theatre and it will interest students of twentieth century European drama as well as those of modern French literature and ideas    **Jean-Paul Sartre** Jean-Pierre Boulé,2011-05-25 Jean Paul Sartre Mind and Body Word and Deed celebrates Sartre's polyvalence with an examination of Sartrean philosophy literature and politics In four distinct yet related sections twelve scholars from three continents examine Sartre's thought writing and action over his long career Sartre and the Body reappraises Sartre's work in dialogue with other philosophers past and present including Maine de Biran Maurice Merleau Ponty and Didier Anzieu Sartre and Time offers a first hand account by Michel Contat of Sartre and Beauvoir working together and a philosophy in practice analysis by François Noudelmann Ideology and Politics

uses Sartrean notions of commitment and engagement to address modern and contemporary politics including insights into Castro De Gaulle Sarkozy and Obama Finally an important but neglected episode of Sartre's life the visit that he and Beauvoir made to Japan in 1966 is narrated with verve and humour by Professor Suzuki Michihiko who first met Sartre during that visit and remained in touch subsequently Taken together these twelve chapters make a strong case for the continued relevance of Sartre today     *The Nature of Love* Irving Singer, 1984 In this concluding volume of his impressive study of the history of Western thought about the nature of love Irving Singer reviews the principal efforts that have been made by 20th Century thinkers to analyze the phenomenon of love The bulk of the book is taken up with critical accounts of the modern thinkers who have systematically called into question the possibility itself of love as a union of distinct human selves For the most part these critiques are effectively executed and they bring a high level of critical acumen to bear on skeptical theses about love that are now too often accepted as truisms Frederick A Olafson Los Angeles Times Book Review Irving Singer has developed a method of historical analysis flexible enough to deal with all kinds of love from Greek homosexual love in Plato to the philia and agape of the New Testament to the courtly love of medieval romance to the Romantics for whom love was magic This final volume brings us to the present In *The Modern World* Singer offers readings of Freud Proust and Sartre among others He shows how their work was formed in reaction to the 19th century ideal of merging of the identities of lover and beloved More often than not the great modern writers portray love as impossible as a field of failure and regret This masterpiece of critical thinking is a timely eloquent and scrupulous account of what after all still makes the world go round Thomas D Evelyn Christian Science Monitor This is the third of a three volume history of the philosophy of love It begins with Kierkegaard Tolstoy and Nietzsche in the nineteenth century and treats Freud Proust Bergson D H Lawrence G B Shaw Santayana Sartre and others in the twentieth Although the author's approach is primarily historical he intersperses critical remarks throughout Most of the major themes which are discussed by philosophers of love make their way into this history including friendship sexual love and the distinction between love that is based on the value of the beloved and love that bestows value on the beloved Singer devotes a number of pages to his own views on falling in love being in love and staying in love Singer's exposition is lucid and organized his criticisms are insightful Ethics In this third volume of historical overview of the development of the Western conception of love Singer uses writers philosophers and psychologists to provide the reader with an overview of love in the late 19th and 20th century Analyzing authors such as Tolstoy Proust D H Lawrence and Shaw and philosophers such as Nietzsche Kierkegaard Sartre and Santayana as well as Freud Singer links each contributor's thoughts to the influence of previous writers and also provides some psycho historical insight into their personal lives that might have been either a source or direct result of their views In this final volume Singer proceeds to look at not just the great men influence but also provides a chapter overviewing scientific contributions to our understanding of love Singer's work is a significant contribution to understanding the social construction of important

abstract social and personal values By tracing love through different historical periods through a variety of voices Singer has created a rich history of the struggle between the ideal and the real between the dreams of what love should provide and the reality of what relationships have been in each historical period By personalizing the voice through psychohistorical analysis Singer also provides insight into the shaping of ideas through the intimate struggles of the shapers
