Queer Anxieties of Young Adult Literature and Culture Derrick Mason, 2020-12-28 Selected as the Children's Literature Association's 2023 Honor Book Young adult literature featuring LGBTQ characters is booming In the 1980s and 1990s only a handful of such titles were published every year Recently these numbers have soared to over one hundred annual releases Queer characters are also appearing more frequently in film on television and in video games This explosion of queer representation however has prompted new forms of longstanding cultural anxieties about adolescent sexuality What makes for a good coming out story Will increased queer representation in young people's media teach adolescents the right lessons and help queer teens live better happier lives What if these stories harm young people instead of helping them In *Queer Anxieties of Young Adult Literature and Culture* Derrick Mason considers these questions through a range of popular media including an assortment of young adult books *Caper in the Castro* the first ever queer video game online fan communities and popular television series *Glee* and *Big Mouth* Mason argues themes that generate the most anxiety about adolescent culture queer visibility risk taking HIV AIDS dystopia and horror and the promise that *It Gets Better* and the threat that it might not challenge us to rethink how we read and engage with young people's media Instead of imagining queer young adult literature as a subgenre defined by its visibly queer characters Mason proposes that we see queer YA as a body of transmedia texts with blurry boundaries one that coheres around affect specifically anxiety instead of content

Comics, Trauma, and the New Art of War Harriet E. H. Earle, 2017-06-19 Conflict and trauma remain among the most prevalent themes in film and literature Comics has never avoided such narratives and comics artists are writing them in ways that are both different from and complementary to literature and film In *Comics Trauma and the New Art of War* Harriet E. H. Earle brings together two distinct areas of research trauma studies and comics studies to provide a new interpretation of a

long standing theme Focusing on representations of conflict in American comics after the Vietnam War Earle claims that the comics form is uniquely able to show traumatic experience by representing events as viscerally as possible Using texts from across the form and placing mainstream superhero comics alongside alternative and art comics Earle suggests that comics are the ideal artistic representation of trauma Because comics bridge the gap between the visual and the written they represent such complicated narratives as loss and trauma in unique ways particularly through the manipulation of time and experience Comics can fold time and confront traumatic events be they personal or shared through a myriad of both literary and visual devices As a result comics can represent trauma in ways that are unavailable to other narrative and artistic forms With themes such as dreams and mourning Earle concentrates on trauma in American comics after the Vietnam War Examples include Alissa Torres s American Widow Doug Murray s The Nam and Art Spiegelman s much lauded Maus These works pair with ideas from a wide range of thinkers including Sigmund Freud Mikhail Bakhtin and Fredric Jameson as well as contemporary trauma theory and clinical psychology Through these examples and others Comics Trauma and the New Art of War proves that comics open up new avenues to explore personal and public trauma in extraordinary necessary ways
