Marley's Ghost

A person is seen from behind, sitting on a dark wooden bench. They are looking out over a large body of water, possibly a lake or a wide river. The scene is set in winter, with snow falling or having just fallen. Bare trees are visible in the background, and the overall atmosphere is quiet and contemplative. The person is wearing a dark jacket and pants. The background shows a hazy, overcast sky and distant hills or mountains.

Charles Dickens and the Victorian Child Amberly Malkovich,2013 This book explores the ideas of children and childhood and the construct of the ideal Victorian child that developed rapidly over the Victorian era along with literacy and reading material for the emerging mass reading public Children s Literature was one of the developing areas for publishers and readers alike yet this did not stop the reading public from bringing home works not expressly intended for children and reading to their family Within the idealized middle class family circle authors such as Charles Dickens were read and appreciated by members of all ages By examining some of Dickens s works that contain the imperfect child and placing them alongside works by Kingsley MacDonald Stretton Rossetti and Nesbit Malkovich considers the construction romanticization and socialization of the Victorian child within work read by and for children during the Victorian Era and early Edwardian period These authors use elements of religion death irony fairy worlds gender and class to illustrate the need for the ideal child and yet the impossibility of such a construct Malkovich contends that the imperfect child more readily reflects reality whereas the ideal child reflects an unattainable fantasy and while debates rage over how to define children s literature such children though somewhat changed can still be found in the most popular of literatures read by children contemporarily
