Island of

Guanyin Marcus Bingenheimer, 2016-03-15 Among Chinese religious sites Mount Putuo the Island of Guanyin stands out as a fascinating embodiment of China's vibrant Buddhist tradition. A small island in the East China Sea, it has been the single most important pilgrimage site for the worship of Guanyin, the beloved Bodhisattva of Compassion, who is venerated from Sri Lanka to Japan. Attracting thousands of visitors every year, the site has accumulated a multi-layered historical record as it appears in different lights in poems, biographies, maps, and legends across the centuries. From its foundation in Mahayana Buddhist scriptures to its descriptions in local histories known as gazetteers, Mount Putuo's distinctive profile makes it an abiding landmark throughout the checkered history of Chinese Buddhism. This book, the first monograph on Mount Putuo in any language, follows the structure of a gazetteer as it presents important texts about this sacred site, which are here translated for the first time, groups them according to the individual genres found in the gazetteers, and analyzes their function. This brings out the full meaning of the texts against their historical, geographical, and religious contexts, producing a panoramic view of Mount Putuo through the lens of its textual heritage. Revealing the dense fabric of one deep-rooted devotional tradition, the book will be of interest to all students of Asian Buddhism. Cultural Centrality and Political Change in Chinese History Roger V. Des Forges, 2003 The Ming period of Chinese history is often depicted as one of cultural aridity, political despotism, and social stasis. Recent studies have shown that the arts continued to flourish, government remained effective, people enjoyed considerable mobility, and China served as a center of the global economy. This study goes further to argue that China's perennial quest for cultural centrality resulted in periodic political changes that permitted the Chinese people to retain control over social and economic developments. The study focuses on two and a half million people in three prefectures of northeast Henan, the central province in the heart of the central plain, a common synecdoche for China. The author argues that this population may have been more representative of the Chinese people at large than were the residents of more prosperous regions. Many diverse individuals in northeast Henan invoked historical models to deal with the present and shape the future. Though they differed in the lessons they drew, they shared the view that the Han dynasty was particularly relevant to their own time. Han and Ming politics were integral parts of a pattern of Chinese historical development that has lasted to the present. *Philosopher, Practitioner, Politician* Jinhua Chen, 2007 The Buddhist master Fazang is regarded as one of the greatest metaphysicians in medieval Asia. This study aims at correcting misinterpretations and shedding light on neglected areas, opening up for discussion the various structures of medieval East Asian monastic biography. *Schöne Wolken treffen* Wulf Noll, Wulf Noll, weitgereister wie renommierter Schriftsteller zeigt uns in seiner amüsanten Reisenovelle das moderne China, das sich so gar nicht mit den tradierten Klischeevorstellungen in Einklang bringen lässt. Eine unterhaltsame und erhellende Lektüre, die die Lust darauf macht, das Land der Mitte einmal selbst genauer kennen zu lernen.

Modern Chinese Religion I (2 vols.), 2014-12-04 A follow-up to *Early Chinese Religion* (Brill 2009). *Modern Chinese Religion* focuses on the third period of paradigm shift in Chinese cultural and religious history, from the Song to the Yuan (960
