Focus On: 100 Most Popular Drama Films Based on Actual Events Wikipedia contributors, **Hollywood's Imperial Wars** Armando José Prats, 2024-04-16 When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando José Prats explores in Hollywood's Imperial Wars The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like *Sands of Iwo Jima* to the rupture of that myth in films such as *The Deer Hunter* *Apocalypse Now* and *Platoon* As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats's analysis were forever altered by the loss in Vietnam Even movies like *American Sniper* that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts **The Transformations of Tragedy** Fionnuala O'Neill Tonning, Erik Tonning, Jolyon Mitchell, 2019-11-26 *The Transformations of Tragedy* Christian Influences from Early Modern to Modern explores the influence of Christian theology and culture upon the development of post classical Western tragedy The volume is divided into three parts early modern modern and contemporary This series of essays by established and emergent scholars offers a sustained study of Christianity's creative influence upon experimental forms of Western tragic drama Both early modern and modern tragedy emerged within periods of remarkable upheaval in Church history yet Christianity's diverse influence upon tragedy has too often been either ignored or denounced by major tragic theorists This book contends instead that the history of tragedy cannot be sufficiently theorised without fully registering the impact of Christianity in transition towards modernity **Crafting Media Personas** Jon Leon Torn, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Media brings us many things But of all the things that media exposes us to by far the most prevalent is other people The vast majority of media content revolves around the human world human experience and human behaviour Whether these humans that we are invited to examine via the media are real or fictional

doesn't often matter. We watch, we judge, and we learn by witnessing through media the actions of people who we never have met personally and most likely never will. This volume examines two important aspects of this media personae-scape which at first glance may appear far removed from one another: celebrities and war films. Both these areas nonetheless share a focus on how humans behave in extreme situations and how media consumers judge them and learn from them. Readers will attain a new appreciation of the importance of the persona across multiple media formats.

Contemporary American Culture Agnieszka Soltysik Monnet,2020-12-16 Combat Death in Contemporary American Culture Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination

A 'Toxic Genre' Martin Barker,2011-06-03 Over the last five years a cycle of films has emerged addressing the ongoing Iraq conflict Some became well known and one of them The Hurt Locker won a string of Oscars But many others disappeared into obscurity What is it about these films that led Variety to dub them a toxic genre Martin Barker analyses the production and reception of these recent Iraq war films Among the issues he examines are the borrowing of soldiers YouTube styles of self representation to generate an authentic Iraq experience and how they take refuge in apolitical post traumatic stress disorder Barker also looks afresh at some classic issues in film theory the problems of accounting for film failures the shaping role of production systems the significance of genre naming and the impact of that toxic label A Toxic Genre is fascinating reading for film studies students and anyone interested in cinema s portrayal of modern warfare *Troubling Masculinities*

Glen Donnar,2020-07-23 *Troubling Masculinities* Terror Gender and Monstrous Others in American Film Post 9 11 is the first multigenre study of representations of masculinity following the emergence of violent terror as a plot element in American cinema after September 11 2001 Across a broad range of subgenres including disaster melodrama monster movies postapocalyptic science fiction discovered footage and home invasion horror action thrillers and frontier westerns author Glen Donnar examines the impact of terror Others from Arab terrorists to giant monsters especially in relation to cinematic representations in earlier periods of national turmoil Donnar demonstrates that the reassertion of masculinity and American national identity in post 9 11 cinema repeatedly unravels across genres Taking up critical arguments about Hollywood s attempts to resolve male crisis through Orientalizing figures of terror he shows how this failure reflects an inability to effectively extinguish the threat or frightening difference of terror The heroes in these movies are unable to heal themselves or restore order often becoming as destructive as the threats they are supposed to be fighting Donnar concludes that interrelated anxieties about masculinity and nationhood continue to affect contemporary American cinema and politics By showing how persistent these cultural fears are the volume offers an important counternarrative to this supposedly unprecedented moment in American history

Clint Eastwood Ian Nathan,2023-09-21 Clint Eastwood is Hollywood s elder statesman and its conscience He is the standard by which other films and filmmakers are judged He represents both classical Hollywood and an entirely modern uncompromising and unfussy directorial presence There are those who adore him as a cowboy a superstar the rugged unyielding yet introspective face of American machismo There are those who read him as a great American auteur fashioning uncompromising fascinating intellectual films about his country about life about whatever the hell takes his fancy No single figure in all of Hollywood operates so freely outside of the strictures of commercial

pressure And yet or perhaps that is because he makes hit after hit Separation of actor and director is almost impossible They are intimately related cross pollinating but he has become in the latter half of his career to be view as one of the great American artists While drawing connections from his wider work as an actor and those who have influenced him it is his identity as a director that this book will celebrate This is not a career it is a landscape
