Arbitration Under International Investment Agreements A Guide To The Key Issues:

Arbitration Under International Investment Agreements Katia Yannaca-Small, 2018 *Arbitration Under International Investment Agreements* describes the most important procedural and substantive aspects of investment arbitration in a practical and accessible manner. Covering all procedural stages of investor state arbitration, the text provides a broad overview of the key topics.

Arbitration Under International Investment Agreements Katia Yannaca-Small, 2018 Investor state arbitration is a relatively new dispute settlement mechanism that allows foreign investors the opportunity to seek redress for damages arising out of breaches of investment related treaty obligations by the governments of host countries. *Arbitration Under International Investment Agreements* Katia Yannaca-Small, 2010 *Arbitration Under International Investment Agreements A Guide to the Key Issues* provides a comprehensive analysis of the main issues that arise in investor state arbitration. The contributing authors take the reader through the intricacies of this procedure before analyzing the main jurisdictional and substantive issues that confront arbitrators. The book concludes with a reflection on the role of precedent in investment arbitration. A diverse group of renowned experts in the field provide comprehensive coverage making *Arbitration Under International Investment Agreements* a valuable resource for anyone working in or studying this field of law.

The Interpretation of Investment Treaties Trinh Hai Yen, 2014-06-05 Within the context of an exponential proliferation of investment treaties with virtually uniform language and structure, *The Interpretation of Investment Treaties* by Trinh Hai Yen reveals the neglect or misapplication of international rules on treaty interpretation by tribunals in arbitral cases. Such practice has raised the question of the legitimacy of the interpretative process and the engendered inconsistent interpretations of investment treaties. The book proposes three interpretative approaches aimed at ensuring that adjudicators find legitimate meaning in the challenging generality and vagueness of investment treaty language. It also provides a comprehensive analysis of legislative solutions for states through a case study of the ASEAN Comprehensive Investment Agreement as well as a comparative analysis of modern and traditional investment treaties.

International Arbitration in Practice Alicja Zielińska-Eisen, Verónica Sandler Obregón, Courtney Lotfi, 2025-03-18 *International Arbitration in Practice* is an indispensable and highly pragmatic book that systematically addresses the concepts underpinning international arbitration and the measures counsel, arbitrator, and institution may apply during proceedings. It has been carefully curated to include insights and best practices based on real world experience and covers the increasing complexity of international commercial and investment arbitration by adeptly addressing arbitrations involving multiple parties or contracts, those spanning multiple jurisdictions and areas of law, and when and how to utilize new trends such as virtual advocacy. What's in this book: Providing in-depth guidance throughout all phases of international arbitration, a carefully selected group of established and emerging practitioners impart their knowledge in user-friendly chapters covering the key elements of practice. These chapters are presented in four sections: counsel's role, which includes chapters on written and oral advocacy;

document production the use of evidence means of shaping an arbitration and how to work with and lead a team the tribunal's role which includes chapters on responding to the nomination arbitrators duties the hearing weighing evidence drafting orders and awards and correction and clarification the institution's role which includes chapters on distinctions between institutional and ad hoc arbitrations the secretariat's role appointing arbitrators advances on costs and scrutiny of arbitral awards and how arbitration is funded which includes chapters on calculating costs third party funding and attorney's fees How this will help you Practitioners and users alike will benefit from the practical presentation of all stages of international arbitration and will be able to approach any case with a full understanding of the potential procedure strategies and tactics to be employed thanks to the authors thorough consideration of the real world practicalities Editors Courtney Lotfi Alicja Zielinska Eisen and Ver nica Sandler Obreg n A Guide to General Principles of Law in International Investment Arbitration Patrick Dumberry, 2020-04-20 In recent years there has been a noticeable increase in references by investor State arbitral tribunals to general principles of law as a source of law however these references have rarely been accompanied by detailed explanation This book aims to provide the actors involved in investor State arbitration with a set of comprehensive guidelines to better understand the nature meaning and function of general principles of law in the field of international investment law Applying these principles to practice the book assesses seventeen concepts and notions in the field of investment arbitration to provide counsel and arbitrators with clear guidance on what should and should not be considered a general principle of law **Schreuer's Commentary on the ICSID Convention** Stephan W. Schill, Loretta Malintoppi, August Reinisch, Christoph H. Schreuer, Anthony Sinclair, 2022-09-14 This unique compendium offers an article by article commentary on the Convention on the Settlement of Investment Disputes between States and Nationals of Other States Providing a comprehensive explanation of the functioning of this important mechanism for the settlement of investor State disputes it incorporates the preparatory work the Convention's text various rules and regulations adopted under the Convention the practice of arbitral tribunals under the Convention and academic writings on the subject The first and second editions of this Commentary have been relied upon by numerous arbitral tribunals This third edition follows the same system and approach but extensive updates and revisions reflect the vast increase in arbitral practice since the publication of the second edition A number of novel issues that have emerged through this practice are now addressed making this practice oriented guide an indispensable tool for anyone dealing with the ICSID Convention Likewise the number of contributors to and editors of the third edition has increased *International Investment Law and the Right to Regulate* Lone Wandahl Mouyal, 2016-03-10 The book considers the ways in which the international investment law regime intersects with the human rights regime and the potential for clashes between the two legal orders Within the human rights regime states may be obligated to regulate including a duty to adopt regulation aiming at improving social standards and conditions of living for their population Yet states are increasingly confronted with the consequences of such regulation in investment disputes

where investors seek to challenge regulatory interferences for example in expropriation claims Regulatory measures may for instance interfere with the investment by imposing conditions on investors or negatively affecting the value of the investment As a consequence investors increasingly seek to challenge regulatory measures in international investment arbitration on the basis of a bilateral investment treaty This book sets out the nature and the scope of the right to regulate in current international investment law The book examines bilateral investment treaties and ICSID arbitrations looking at the indicative parameters that are granted weight in practice in expropriation claims delimiting compensable from non compensable regulation The book places the potential clash between the right to regulate and international investment law within a theoretical framework which describes the stability flexibility dilemma currently inherent within international law Lone Wandahl Mouyal goes on to set out methods which could be employed by both BIT negotiators and adjudicators of investment disputes allowing states to exercise their right to regulate while at the same time providing investors with legal certainty The book serves as a valuable tool an added perspective for academics as well as for practitioners dealing with aspects of international investment law

International Arbitration and EU Law Nikos Lavranos, Stefano Castagna, 2024-08-06 In this substantially revised and updated second edition this work examines the intersection of EU law and international arbitration based on the experience of leading practitioners in both commercial and investment treaty arbitration law It expertly illustrates the depth and breadth of EU law s impact on party autonomy and on the margin of appreciation available to arbitral tribunals This second edition covers all relevant new developments in law and practice and tracks the ever increasing influence of EU law and the jurisprudence of the Court of Justice of the EU CJEU in international arbitration

Cambridge Compendium of International Commercial and Investment Arbitration Stefan Kröll, Andrea K. Bjorklund, Franco Ferrari, 2023-03-02 The Compendium like an encyclopedia contains entries for most of the foundational principles and concepts underlying arbitration Each entry takes a holistic view of international arbitration as they tackle core concepts from both a commercial and an investment arbitration perspective focusing on the fundamental issues underlying the various topics rather than on the solutions adopted in any particular jurisdiction thus making the Compendium a truly cross border transnational resource This innovative approach will allow readers to identify the commonalities as well as the differences between commercial and investment arbitration whether and where cross fertilization has taken place and what consequences it can have This approach allows the Compendium to be a tool in promoting the creation of a culture of international arbitration that considers commercial arbitration and investment arbitration as part of a whole but with certain distinct features particular to each
