Archaeologies Of Vision Foucault And Nietzsche On Seeing And Saying:

Archaeologies of Vision Gary Shapiro, 2003-04-15 While many acknowledge that Friedrich Nietzsche and Michel Foucault have redefined our notions of time and history few recognize the crucial role that the infinite relation between seeing and saying plays in their work Shapiro reveals the full extent of Nietzsche and Foucault's concern with the visual *The Archaeology of Foucault* Stuart Elden, 2022-12-01 On 20 May 1961 Foucault defended his two doctoral theses on 2 December 1970 he gave his inaugural lecture at the Collège de France Between these dates he published four books travelled widely and wrote extensively on literature the visual arts linguistics and philosophy He taught both psychology and philosophy beginning his explorations of the question of sexuality Weaving together analyses of published and unpublished material this is a comprehensive study of this crucial period As well as Foucault's major texts it discusses his travels to Brazil Japan and the USA his time in Tunisia and his editorial work for Critique and the complete works of Nietzsche and Bataille It was in this period that Foucault developed the historical philosophical approach he called archaeology the elaboration of the archive which he understood as the rules that make possible specific claims In its detailed study of Foucault's archive the book is itself an archaeology of Foucault in another sense both excavation and reconstruction This book completes a four volume series of major intellectual histories of Foucault Foucault's Last Decade was published by Polity in 2016 Foucault The Birth of Power followed in 2017 and The Early Foucault in 2021 Foucault's Philosophy of Art Joseph J. Tanke, 2009-08-30 Offers the first complete examination of Foucault's reflections on visual art leading to new readings of his major texts

Bismarck's Germany and post 9 11 America Nietzsche's Earth invites readers to rethink not just the philosopher himself but the very direction of human history

Art and Truth after Plato Tom Rockmore, 2024-05-31 Despite its foundational role in the history of philosophy Plato's famous argument that art does not have access to truth or knowledge is now rarely examined in part because recent philosophers have assumed that Plato's challenge was resolved long ago In *Art and Truth after Plato* Tom Rockmore argues that Plato has in fact never been satisfactorily answered and to demonstrate that he offers a comprehensive account of Plato's influence through nearly the whole history of Western aesthetics Rockmore offers a cogent reading of the post Platonic aesthetic tradition as a series of responses to Plato's position examining a stunning diversity of thinkers and ideas He visits Aristotle's *Poetics* the medieval Christians Kant's *Critique of Judgment* Hegel's phenomenology Marxism social realism Heidegger and many other works and thinkers ending with a powerful synthesis that lands on four central aesthetic arguments that philosophers have debated More than a mere history of aesthetics *Art and Truth after Plato* presents a fresh look at an ancient question bringing it into contemporary relief

Watching Babylon Nicholas Mirzoeff, 2012-10-12 Groundbreaking and compelling *Watching Babylon* examines the experience of watching the war against Iraq on television on the internet in the cinema and in print media Mirzoeff shows how the endless stream of images flowing from the Gulf has necessitated a new form of visual thinking one which recognises that the war has turned images themselves into weapons Drawing connections between the history and legend of ancient Babylon the metaphorical Babylon of Western modernity and everyday life in the modern suburb of Babylon New York Mirzoeff explores ancient concerns which have found new resonance in the present day In the tradition of Walter Benjamin *Watching Babylon* illuminates the Western experience of the Iraqi war and makes us re-examine the very way we look at images of conflict

Metamorphosis David Gallagher, 2009 The origins of selected instances of metamorphosis in Germanic literature are traced from their roots in Ovid's *Metamorphoses* grouped roughly on an ascending evolutionary scale invertebrates birds animals and mermaids Whilst a broad range of mythological legendary fairytale and folktale traditions have played an appreciable part Ovid's *Metamorphoses* is still an important comparative analysis and reference point for nineteenth and twentieth century German language narratives of transformations *Metamorphosis* is most often used as an index of crisis an existential crisis of the subject or a crisis in a society's moral social or cultural values Specifically selected texts for analysis include Jeremias Gotthelf's *Die schwarze Spinne* 1842 with the terrifying metamorphoses of Christine into a black spider the metamorphosis of Gregor Samsa in Kafka's *Die Verwandlung* 1915 ambiguous metamorphoses in E T A Hoffmann's *Der goldne Topf* 1814 Hermann Hesse's *Piktors Verwandlungen* 1925 *Der Steppenwolf* 1927 and Christoph Ransmayr's *Die letzte Welt* 1988 Other mythical metamorphoses are examined in texts by Bachmann Fouqu Fontane Goethe Nietzsche Nelly Sachs Thomas Mann and Wagner and these and many others confirm that metamorphosis is used historically scientifically for religious purposes to highlight identity sexuality a dream state or for metaphoric metonymic or allegorical reasons

Pedagogies of the Image Hannah M. Tavares, 2016-06-15 This work considers the potential of photographs for orienting in a critical direction the scope questions and interests of the disciplinary conventions of the field of educational inquiry Visual objects may help illuminate broader socio historical events and logics that are deeply entwined with education yet remain marginal to or outside of what constitutes its domain of study In this work photographic images are treated as resources for re visioning the founding disciplinary objects of educational studies by reorienting its proper objects of study traditional archives persistent categories frames of reference and accepted portals of research and inquiry A theoretic framing shapes the question taken up in this work How might an engagement with photo archives open new horizons in the study of education from a postfoundationalist multi theoretic and cross disciplinary perspective The author constructs a rather unconventional vantage point to explore this question that opens on to the discursive spaces of three photographs made of three women in the years 1897 1949 and 1966 The photographs are analysed from three theoretic approaches First it is indicated how each photographic image not only marks a relationship to the past the present and the future but to the rules and conventions of photographic practices These particular images give an account of what both persists and exceeds the photographic image and permit to rewrite the bodies and lives pictured Second the subject matter of each photographic image while singular and local bears witness to the complex network of racial patriarchal and colonial logics and their profound imbrication with a technically mediated inscription For all their singularity the photographs cannot but evoke their relation to the deeply historical character of photography Finally the photographs make possible an account of broader occurrences subterranean histories contexts and differently situated experiences that illuminate much like the principle of montage a sequence of overlapping events crosscutting with one another consequently throwing open the possibility of responding to and transforming the histories and archives we are given This book *Pedagogies of the Image* is a winner of the 2017 American Educational Studies Association Critics Choice Award

Democracy faces threats from an emerging right wing movement in democratic governments around the world This may be even more prevalent in the United States because there is an evil that uses rhetorical tropes to undermine the anchor institutions of democracy press courts universities and Congress This evil has a personification former President Donald Trump All the rhetorical critiques of Trump that he is a demagogue an authoritarian a serial liar a populist on steroids fail to take into account the evil that is fomented by his angry and vengeful rhetoric Pictures of evil in Scripture philosophy and rhetoric bear a striking resemblance to Trump It is not enough to say that he is dangerous to democracy Kennedy claims that he is the evil seed in democracy that is even now sprouting new versions of the Trump rhetoric as each acolyte attempts to outrage the next *Good and Evil in the Garden of Democracy* screams at the evil fights against the evil and then attempts to sing the songs of goodness and democracy from poets prophets and rhapsodes For the health of democracy these words have been written **Foucault's Legacy** C.G.
