Reinhold Kramer,2019-11-08 In this book Reinhold Kramer explores a variety of important social changes including the resistance to objective measures of truth the rise of How I Feel ethics the ascendancy of individualism the immersion in cyber simulations the push toward globalization and multilateralism and the decline of political and religious faiths He argues that the displacement since the 1990s of grand narratives by ego based narratives and small narratives has proven inadequate and that selective adherence pluralist adaptation and humanism are more worthy replacements Relying on evolutionary psychology as much as on Charles Taylor Kramer argues that no single answer is possible to the book title s question but that the term postmodernity referring to the era not to postmodernism still usefully describes major currents within the contemporary world **Britannica Book of the Year ,2012**
