difference like chromosomes sperm bugs or an endangered seabird that nests in old growth forests But what's big or what's little depends entirely on your perspective Faye Pearson is a three and a half foot tall female scientist doing entomological research in the tallest trees on Vancouver Island who is pit with a ragtag group of protesters against the might of a multinational logging corporation The story of Faye and her struggle to function in a world not made for people her size is poignant and heart warming Whether she is lusting after her climbing partner standing up to a conflicted logging boss dressing down an insulting interviewee nurturing a wayward child in the midst of an environmental standoff or being carted off under the arm of a Mountie you'll be unable to resist this amazing woman There is a fall in Eriksson's novel but also incredible moments of grace *Falling from Grace* is a novel of no small achievement [Forest Talk](#) Melissa Koch, 2019-01-01

Trees are essential They provide water shelter and food for millions of plant and animal species including humans They deliver proven health benefits and they capture and store carbon which combats climate change Yet trees are in trouble Forests are struggling to adapt to climate change and deforestation is a major threat Recently researchers and citizen scientists made the surprising revelation that trees communicate with each other through an underground system of soil fungi and other methods Complex social networks help trees survive and thrive by transferring resources to each other sending defense signals communicating with their kin and more Meet the tree scientists and learn more of their fascinating discoveries [Losing Ground](#) David M. Burley, 2010-04-26

What is it like to lose your front porch to the ocean To watch salt water destroy your favorite fishing holes To see playgrounds and churches subside and succumb to brackish and rising water The residents of coastal Louisiana know For them hurricanes are but exclamation points in an incessant loss of coastal land now estimated to occur at a rate of at least twenty four square miles per year In *Losing Ground* coastal Louisianans communicate the significance of place and environment During interviews taken just before the 2005 hurricanes they send out a plea to alleviate the damage They speak with an urgency that exemplifies a fear of losing not just property and familiar surroundings but their identity as well People along Louisiana's southeastern coast hold a deep attachment to place and this shows in the urgency of the narratives David M Burley collects here The meanings that residents attribute to coastal land loss reflect a tenuous and uprooted sense of self The process of coastal land loss and all its social components from the familial to the political impacts these residents concepts of history and the future Burley updates many of his subjects narratives to reveal what has happened in the wake of the back to back disasters of Hurricanes Katrina and Rita **Green Planet** Stanley A Rice, 2009-01-28

Plants are not just a pretty part of the landscape they keep the entire planet with all of its human and nonhuman inhabitants alive Stanley Rice documents the many ways in which plants do this by making oxygen regulating the greenhouse effect controlling floods and producing all the food in the world Plants also create natural habitats for all organisms in the world With illustrations and clear writing for non specialists *Green Planet* helps general readers realize that if we are to rescue the Earth from environmental disaster we must protect wild plants Beginning with an

overview of how human civilization has altered the face of the Earth particularly by the destruction of forests the book details the startling consequences of these actions Rice provides compelling reasons for government officials economic leaders and the public to support efforts to save threatened and endangered plants Global campaigns to solve environmental problems with plants such as the development of green roofs and the Green Belt Movement a women s organization in Kenya that empowers communities worldwide to protect the environment show readers that efforts to save wild plants can be successful and beneficial to the economic well being of nations Through current scientific evidence readers see that plants are vital to the ecological health of our planet and understand what can be done to lead to a better and greener future Benefits of plants Help modulate greenhouse gases Produce almost all oxygen in the air Create cool shade that reduces energy costs Prevent floods droughts and soil erosion Produce all of the food in the world Create and preserve soil Create natural habitats Heal the landscape after natural and human disasters

The Modern WitchÕs Curriculum A guide to spiritual exploration, discovery, and magickal practices E. Massey, 2018-05-30 There comes a time in every Witch s life when they feel there is nothing left to learn When all the classes and all the books just cannot satisfy our want to learn more What if there was a book for all magickal practitioners that went beyond Witchcraft magick 101 and 102 What if there was a resource that allowed a Witch to grow and learn without the constraints of tradition and at their own pace The Modern Witch s Curriculum is that resource Combining history science and hands on activities in an easy to follow calendar format that can be started at any time of the year and on any day of the week There is no beginning or ending to this book It can be used over and over again This curriculum is relevant to anyone of any magickal tradition or spiritual background Created to guide the reader to areas of study and spiritual knowledge by using any resources that are accessible to them There are no boundaries or requirements on how the reader can collect the information it s all individual choice

Values in Sustainable Development Jack Appleton, 2013-08-22 To enhance sustainable development research and practice the values of the researchers project managers and participants must first be made explicit Values in Sustainable Development introduces and compares worldviews and values from multiple countries and perspectives providing a survey of empirical methods available to study environmental values as affected by sustainable development The first part is methodological looking at what values are why they are important and how to include values in sustainable development The second part looks at how values differ across social contexts religions and viewpoints demonstrating how various individuals may value nature from a variety of cultural social and religious points of view The third and final part presents case studies ordered by scale from the individual and community levels through to the national regional and international levels These examples show how values can motivate be incorporated into and be an integral part of the success of a project This thought provoking book gives researchers students and practitioners in sustainable development a wealth of approaches to include values in their research

Ginkgo Peter Crane, 2013-03-19 DIV Perhaps the world s most distinctive tree ginkgo has remained stubbornly unchanged for more than

two hundred million years A living link to the age of dinosaurs it survived the great ice ages as a relic in China but it earned its reprieve when people first found it useful about a thousand years ago Today ginkgo is beloved for the elegance of its leaves prized for its edible nuts and revered for its longevity This engaging book tells the full and fascinating story of a tree that people saved from extinction a story that offers hope for other botanical biographies that are still being written divDIV

divDIVInspired by the historic ginkgo that has thrived in London s Kew Gardens since the 1760s renowned botanist Peter Crane explores the evolutionary history of the species from its mysterious origin through its proliferation drastic decline and ultimate resurgence Crane also highlights the cultural and social significance of the ginkgo its medicinal and nutritional uses its power as a source of artistic and religious inspiration and its importance as one of the world s most popular street trees Readers of this extraordinarily interesting book will be drawn to the nearest ginkgo where they can experience firsthand the timeless beauty of the oldest tree on Earth div

Naturekind Melissa Leach,James Fairhead,2025-10-07 A new paradigm that integrates human and nonhuman communication and culture Are language and culture uniquely human justifying an exceptionalism that sets people apart from the rest of nature New discoveries in the biological sciences have challenged this assumption finding syntax symbolism and social learning beyond the human and identifying culture as a second inheritance system across the phyla from whales to insects and plants Biologists are constrained however by the mechanistic ways communication is understood In **Naturekind** Melissa Leach and James Fairhead address this impasse by extending insights from structural linguistics social semiotics anthropology and Indigenous theorization into wider life integrating them with new biological findings to develop a new structural biosemiotics paradigm Leach and Fairhead argue that such a paradigm can provide a unified theory of meaning making across all of nature or naturekind allowing new theorisation about human and nonhuman communication and culture They examine people s communicative encounters with chickens horses bees bats and plants and with assemblages of living and nonliving entities forests seas soils and cities Marrying the new biology with the structural social sciences they contend provides powerful insights for living well with wider life on a shared planet and transforming political relations

The Myriad Faces of Heroes and Heroines Julian Patrick Ward,Kelly Kar Yue Chan,Chi Sum Garfield Lau,2025-03-31 This collection scrutinizes the representation dynamics transformation and or adaptation of various heroes and heroines in different folkloric traditions and narratives in the context of Asia Exploring notions in the topics of mythologies folktales literature theatre performance and any other art forms the volume collates discussions on the pragmatic and aesthetic representation of men and women within the mythic world and within contemporary settings In doing so it produces a contemporary theorization of Asian heroes and heroines beyond their mythic structure and folkloric limits In considering the representation of heroes and heroines in the Asian folkloric tradition and in comparative contexts the book establishes connections between characters from myths and folktales and those found in contemporary narratives considers the adaptation and transformation of heroes and heroines as revealed in a variety of literary works and also

assesses the gendering of social roles in modern literature and other art forms It is of interest to scholars and advanced students in comparative literature Asian cultural studies and theatre and performance **The Land Speaks** Deborah Jean Lee, 2017 The Land Speaks explores the intersections of two vibrant fields oral history and environmental studies The fourteen oral histories collected here range North America examining wilderness and cities farms and forests rivers and arid lands The contributors argue that oral history can capture communication from nature and provide tools for environmental problem solving **Terrain** ,2006 **Being Both** Susan Katz Miller, 2013-10-22 A book on the growing number of interfaith families raising children in two religions Susan Katz Miller grew up with a Jewish father and Christian mother and was raised Jewish Now in an interfaith marriage herself she is a leader in the growing movement of families electing to raise children in both religions rather than in one religion or the other or without religion Miller draws on original surveys and interviews with parents students teachers and clergy as well as on her own journey in chronicling this grassroots movement Being Both is a book for couples and families considering this pathway and for the clergy and extended family who want to support them Miller offers inspiration and reassurance for parents exploring the unique benefits and challenges of dual faith education and she rebuts many of the common myths about raising children with two faiths Being Both heralds a new America of inevitable racial ethnic and religious intermarriage and asks couples who choose both religions to celebrate this decision *Unasylva* ,2008
