Between Jerusalem And Benares Comparative Studies In Judaism And Hinduism:

Between Jerusalem and Benares Hananya Goodman, 2016-03-22 This book stands at the crossroads between Jerusalem and Benares and opens a long awaited conversation between two ancient religious traditions It represents the first serious attempt by a group of eminent scholars of Judaic and Indian studies to take seriously the cross cultural resonances among the Judaic and Hindu traditions The essays in the first part of the volume explore the historical connections and influences between the two traditions including evidence of borrowed elements and the adaptation of Jewish Indian communities to Hindu culture The essays in the second part focus primarily on resonances between particular conceptual complexes and practices in the two traditions including comparative analyses of representations of Veda and Torah legal formulations of dharma and halakhah and conceptions of union with the Divine in Hindu Tantra and Kabbalah

The Georgetown Companion to Interreligious Studies Lucinda Mosher, 2022

The Georgetown Companion to Interreligious Studies is a comprehensive authoritative creative and cutting edge anthology of fifty essays that taken as a group provide insight into and food for further thought about sub categories of a field of academic inquiry that has developed rapidly in recent decades Interreligious Studies is an academic field in which scholars deliberately draw on at least one other religion in addition to their home tradition when reflecting on worldview questions an arena in which at least one religious discourse is involved with some other discourse Hence Interreligious Studies is inherently multi disciplinary bringing together the study of religion s with methodologies from the fields of anthropology sociology psychology political science history women s studies ecology and more Interreligious Studies gives pride of place to relational intersectional and dialogical approaches as it seeks theoretical and practical insights through the examination of how religions relate to each other to their own internal diversity to various social systems to society at large A recent assessment of Interreligious Studies programs in universities and theological schools indicates that they make wide but not exclusive use of comparative and critical methods that their purposes include cultivation of religious literacy promotion of dialogue fostering of citizenship and professional preparation for leadership in multireligious contexts

Indo-judaic Studies ,2002 **The Jewish Encounter with Hinduism** Alon Goshen-Gottstein,2017-08-01 Hinduism has become a vital other for Judaism over the past decades The book surveys the history of the relationship from historical to contemporary times from travellers to religious leadership It explores the potential enrichment for Jewish theology and spirituality as well as the challenges for Jewish identity **The Mystery of Suffering and the Meaning of God** Anson

Hugh Laytner,2019-07-12 The Mystery of Suffering and the Meaning of God is a book written by a skeptical but spiritual person for people who struggle with the subjects of God divine providence prayer and related issues people who are looking for honest and thoughtful and sometimes humorous theological reflections but no easy answers A work of creative theology fifteen years in the making The Mystery of Suffering and the Meaning of God deals primarily with the issue of suffering starting with the book of Job and addresses the subject of theodicy before going on to explore related topics of the role of prayer God concepts the meaning of revelation and how we can best live together Laytner intersperses these penetrating theological reflections with pertinent episodes from his life starting with the personal tragedies that sparked this book Trained as a liberal rabbi Laytner riffs on Jewish themes to offer a universal yet personal response to each of the challenges he discusses His thesis is this If you are troubled by the issue of suffering and wonder about God's presence or lack thereof in the world and you find no solace in any of the traditional theodicies then change your conception of God and God's involvement in the world Problem solved History, Archaeology and The Bible Forty Years After Historicity Ingrid

Hjelm,Thomas L. Thompson,2016-02-22 In History Archaeology and the Bible Forty Years after Historicity Hjelm and Thompson argue that a crisis broke in the 1970s when several new studies of biblical history and archaeology were published questioning the historical critical method of biblical scholarship The crisis formed the discourse of the Copenhagen school's challenge of standing positions which together with new achievements in archaeological research demand that the regional history of ancient Israel Judaea and Palestine be reconsidered in all its detail This volume examines the major changes that have taken place within the field of Old Testament studies since the ground breaking works of Thomas Thompson and John van Seters in 1974 and 1975 both republished in 2014 The book is divided in three sections changing perspectives in biblical studies history and cult and ideology and history presenting new articles from some of the field's best scholars with comprehensive discussion of historical archaeological anthropological cultural and literary approaches to the Hebrew Bible

and Palestine's history The essays question How does biblical history relate to the archaeological history of Israel and Palestine and Can we view the history of the region independently of a biblical perspective by looking at the problem from alternative angles and questioning long held interpretations Unafraid to break new ground History Archaeology and the Bible Forty Years after Historicity is a vital resource to students in the field of Biblical and East Mediterranean Studies and anyone with an interest in the archaeology history and religious development in Palestine and the ancient Near East **The Notion of "religion" in Comparative Research** Ugo Bianchi, 1994 Nel 1990 si tenne a Roma il XVI Congresso del I A H R che ebbe come tema la nozione di religione Venne particolarmente analizzato l'uso di tale termine da parte degli studiosi di lingua europea nei rapporti con le culture non europee e viceversa Rituals in Interreligious Dialogue Marcel Poorthuis, 2020-04-30 Rituals are back on stage today Until recently they were regarded as an obsolete and even incomprehensible part of religions relegated to the background while ethics and spirituality attracted more focus However the realisation is growing that rituals represent the treasure of religious memory They connect the human being to the past and to the community that surrounds her or him However what happens to rituals when different religions meet This book shows that a great deal can be learned by taking rituals seriously This holds good for the rich treasure of rituals within religions such as Judaism Islam Hinduism and Christianity Only by recognizing these treasures can new possibilities for rituals in interreligious encounters be explored **Language, Eros, Being** Elliot R. Wolfson, 2009-08-25 This long awaited magisterial study an unparalleled blend of philosophy poetry and philology draws on theories of sexuality phenomenology comparative religion philological writings on Kabbalah Russian formalism Wittgenstein Rosenzweig William Blake and the very physics of the time space continuum to establish what will surely be a highwater mark in work on Kabbalah Not only a study of texts Language Eros Being is perhaps the fullest confrontation of the body in Jewish studies if not in religious studies as a whole Elliot R Wolfson explores the complex gender symbolism that permeates Kabbalistic literature Focusing on the nexus of asceticism and eroticism he seeks to define the role of symbolic and poetically charged language in the erotically configured visionary imagination of the medieval Kabbalists He demonstrates that the traditional Kabbalistic view of gender was a monolithic and androcentric one in which the feminine was conceived as being derived from the masculine He does not shrink from the negative implications of this doctrine but seeks to make an honest acknowledgment of it as the first step toward the redemption of an ancient wisdom Comparisons with other mystical traditions including those in Christianity Buddhism and Islam are a remarkable feature throughout the book They will make it important well beyond Jewish studies indeed a must for historians of comparative religion in particular of comparative mysticism Praise for Elliot R Wolfson Through a Speculum That Shines is an important and provocative contribution to the study of Jewish mysticism by one of the major scholars now working in this field Speculum **International Handbook of the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew

McGrady,2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world **How the Temple Thinks**

Francis Schmidt,2001-01-01 Beyond the political elites and the scribes among the anonymous and unranked the Jerusalem Temple provided the necessary social cohesion for Judaism and the Jewish people It acted not only as edifice but also as system of thought with its categories of pure and impure of sacred and profane extending beyond the sanctuary to the Land of Israel from the sacrificial altar to the daily tables The Temple was already an idea more than a reality in the Dead Sea Scrolls and it came to an end in 70 CE Yet even beyond this end when Rabbinic Judaism takes shape there remains the Thinking of the Temple *Reincarnation* Elizabeth Clare Prophet,Erin L. Prophet,1997 A long time ago Christians believed in reincarnation This groundbreaking work makes the case that Jesus taught reincarnation Elizabeth Clare Prophet traces the history of reincarnation in Christianity from Jesus and early Christians through Church councils and the persecution of so called heretics Using the latest scholarship and evidence from the Dead Sea Scrolls and Gnostic texts she also argues persuasively that Jesus was a mystic who taught that our destiny is to unite with the God within Your view of Jesus and of Christianity will never be the same **Towards the Mystical Experience of Modernity** Yehudah Mirsky,2021-08-10

Avraham Yitzhaq Ha Cohen Kook 1865 1935 stands as a colossal figure of modern Jewish history and thought Jurist mystic poet theologian communal leader founder of the modern Chief Rabbinate and still the defining thinker of Religious Zionism he is indispensable for understanding modern Jewish thought the contemporary State of Israel and the most fundamental interactions of religion nationalism ethics and spirituality Despite countless studies of him almost no full fledged intellectual biography of him exists in any language This study of the years before his momentous move to Jaffa in 1904 drawing on little known works including recently published manuscripts begins to fill that gap It traces his life and times in the remarkably intense Rabbinic intellectual milieu of late nineteenth century Eastern Europe and his path from a profound regularly rationalist traditionalism towards a dynamic theology and spiritual practice weaving together Kabbalah philosophy universal ethics and romantic mysticism **Exegesis in the Making** Anna Runesson,2010-12-07 The last thirty years have witnessed

increasing diversity in methodology and perspectives within biblical studies One of the most dynamic and continually expanding contributions to this development is that of postcolonial studies known for its fresh approaches as well as for its complex theoretical foundations The present book aims at introducing both student and scholar to this emerging field Part One discusses in a structured and pedagogical way the theoretical location of postcolonial biblical studies as well as its critique of and contributions to New Testament exegesis more specifically Part Two presents five articles by scholars from Africa Asia and North America illustrating the diversity of current postcolonial studies as applied to individual New Testament texts
