Hasnas, Professor of Business and Professor of Law (by Courtesy) John Hasnas, 2024 It is commonly assumed that the state must provide the law necessary to maintain a peaceful and orderly society to regulate the market and to protect the environment In this part of the book I argue that these assumptions derive from a false dilemma from the belief that the only options are legal regulation by the state and no regulation This overlooks a third option the regulation of human behavior by binding rules that emerge from human interaction most importantly by common law civil liability I argue that the recognition of this third possibility implies that a proper analysis requires a comparative assessment of the effectiveness of state created law and emergent law Chapter 1 offers such an assessment of the criminal law and tort law as mechanisms for reducing violence sufficiently to allow human cooperation and prosperity Chapter 2 offers a comparative assessment of legislation and common law as mechanisms for ensuring that market exchanges do not impose costly unconsented to harm of third parties And Chapter 3 offers a similar assessment of legislation and common law as mechanisms for preventing environmental degradation **Handbook of Functional Beverages and Human Health** Fereidoon Shahidi, Cesaretti
