Lohan Gwyneth Paltrow and Oprah Winfrey and their battles with bulimia post maternal weight gain and yo yo dieting not only serve as public enactments of the same eating and weight struggles their fans endure but create a new normal which naturalizes and even valorizes the chronic body dissatisfaction and weight obsession that are established risk factors for eating disorders in women and girls Written for students of cultural and gender studies parents media literacy educators as well as film buffs everywhere this book aims to provide the moviegoer with the critical tools necessary to develop a resistant gaze at Hollywood productions and make healthier choices among the many viewing screens of our super mediated world
