Divorced from Reality Jane C. Murphy, Jana B. Singer, 2015-06-26 Over the past thirty years there has been a dramatic shift in the way the legal system approaches family disputes Traditionally family disputes were resolved through an adversary system opposing parties appealed to a judge who determined which party was at fault and how the marital assets including the children should be divided Now many family courts are opting for a problem solving model in which courts attempt to restructure families by resolving both legal and nonlegal issues At the same time American families have changed dramatically Divorce rates have slowed while the number of children born and raised outside of marriage has increased sharply Grandparents and same sex partners care for children and more fathers seek an active role in their children s lives As a result families in today s court system have become more diverse and their legal situations more complex In *Divorced from Reality* Jane C Murphy and Jana B Singer argue that the current problem solving model fails to address the realities of today s families While today s dispute resolution regime may represent an improvement over its more adversary predecessor it is built largely around the model of a divorcing nuclear family with lawyers representing all parties a model that fits poorly with the realities of today s disputing families And courts may no longer be the best place for families in conflict To serve the families it is meant to help the legal system must adapt and reshape itself Unedited summary from book jacket
