Beyond Reason And Tolerance The Purpose And Practice Of Higher Education:

Beyond Reason and Tolerance Robert Joseph Thompson, 2014-03 Beyond Reason and Tolerance argues that to prepare students to engage political ethnic and religious differences higher education must adopt a developmental model for a formative and liberal undergraduate education *The Limits of Religious Tolerance* Alan Levinovitz, 2016-10-21 Is religious tolerance always a virtue Can we shield any discourse with the claim of religious belief Alan Levinovitz argues that preserving a meaningful place for religiously informed values in public discourse means we must discern limits on what qualifies as religious speech *History, Practice and Pedagogy* Susan Barahal, Elizabeth Pugliano, 2024-11-21 This edited volume explores the historical practical and pedagogical possibilities for expressing and cultivating empathy through works of art While aspects of what we today recognize as empathy has nestled in the artistic experiences and philosophies of all ages the subjective and elusive nature of empathic responses has often resulted in the relegation of empathy to the margins of art historical inquiry Moving into the second quarter of the twenty first century amidst global health crises civic unrest political turmoil and persistent social inequities and injustices this capacity to feel with and as someone or something outside of ourselves is more critical than ever Probing the very notion of empathy contributions address themes ranging from environmental and social justice to identity and inclusion to transdisciplinary pedagogies and practices each with a critical eye to how works of art not only appeal to empathic sensibilities but might play an active role in developing capacities for empathy in viewers **The Experience of Being First in Family at University** Sharron King, Ann Luzeckyj, Ben McCann, 2019-10-26 This book provides an in depth analysis of what it means to be the first in family at university It examines the factors that influence first in family students decisions to enrol attend and continue at university and how their hopes dreams and ambitions for the future affect their university experience Using survey data and semi structured interviews the book offers valuable and far reaching insights into the first in family student experience and provides recommendations for future practice at the national and institutional level for teaching and professional staff as well as for first in family students As universities face intense competition for students and growing economic constraints due to funding cuts and increasing costs this book comes at a critical time *Multidisciplinary Approaches to Culminating Student Experiences* Michael G. Strawser, Robin Yaure, 2024-05-14 Despite the relatively recent popularity of culminating experiences a multidisciplinary and practical resource that provides information for all types of culminating student experiences is not yet available The idea for this volume arose because of the recognition that a holistic and applied resource for those looking to have general knowledge of different ways to assess student learning especially at the undergraduate level was lacking This text seeks to fill a gap and provide a historical context for culminating experiences suggestions for assessment foundational knowledge for different types of projects and finally approaches to using these experiences in various disciplines Because of the information desired experts in their field from a wide variety of disciplines were approached to be chapter contributors

This resource focuses predominantly on undergraduate students but many of the chapters can either be applied to both undergraduate and graduate students e.g. thesis or specifically focus on the graduate student population e.g. dissertation
