Beyond The Bulb How To Be More Creative At Everything:

Creativity Unlimited Micael Dahlen, 2015-08-10 Flying in the face of current thinking this book suggests that we do not need to think outside the box in our quest for creativity rather we should rethink the way we look inside the box This idea will resonate only too well with those who have endeavoured to be creative by thinking outside that box only to have their attempts scuppered by the constraints of bureaucracy and organizational politics Instead of fighting a losing battle the author suggests that creativity should be worked at within the constraints of the organizational box but that space needs to be grown and allowed to be shaken up Only by experimenting mutating and finding new directions can you uncover business paths that lead to success The reader is encouraged not to free themselves from all their knowledge and experiences the thinking outside the box method but to use their knowledge and experience in new ways The book is structured around three key steps Expanding the box so that the pieces of the puzzle in it can move around more freely Filling the box with even more knowledge and how to get these new pieces of the puzzle to connect with the existing ones Shaking the box so that the pieces fall into new places and form new patterns The book shows that anybody can be creative The creative methods suggested in the book will be linked to real business examples from which techniques have been developed to help their implementation Numerous exercises and eye openers form part of the practical implementation of Micael Dahl n s ideas The book is framed by models and concepts of how creativity works the creative process the creative person and the creative result and what its effects are

Embracing God's Future without Forgetting the Past Michael K. Girlinghouse, 2019-08-06 Many congregations today are dealing with changes that have led to decline and significant loss In Embracing God s Future without Forgetting the Past Michael K Girlinghouse argues that until a congregation comes to terms with its perceived losses through a healthy process of grief it will be paralyzed in the present and unable to think creatively about the future Acknowledging and expressing grief will give the congregation the courage to redefine its relationship with the past and draw strength and encouragement from its memories as it steps into the future Drawing on more than thirty years of ministry experience in varied settings and concurrent study and teaching about loss grief and nostalgia Girlinghouse shows clergy church staff and lay leaders how they can work through the experience of loss and grief both personally and in their congregation Part 1 discusses loss and grief using a contemporary task based model for the grief process It also introduces recent research on the value of nostalgia In part 2 Girlinghouse helps leaders tell their congregation s story including its losses examine how that story fits in our current social context and explore ways to accept the reality of its losses and express grief over them Part 3 considers ways congregations can think more adaptively and creatively about the future without forgetting or devaluing the past Girlinghouse presents appreciative

inquiry as a tool to discover and build on a congregation's strengths while coming to terms with its losses Part 4 is about embracing God's future for the congregation remembering forward and making the changes necessary to move from the sadness of loss to the joy of taking up life again Each chapter includes a Bible study and questions for reflection and discussion
