Soul Signs In Love Diane Eichenbaum, 2001-02-08 Do you believe that the key to finding your soul mate is only in your stars? That you and your partner must have compatible Sun signs if romance is going to thrive? Not so. The truth is that many couples who seem ideally matched astrologically don't sustain a loving relationship. While most astrology books may tell you that true love is a matter of fate, Diane Eichenbaum's Soul Signs in Love shows you that you have the freedom to create the relationship that's right for you. Eichenbaum reveals that relationships involve a combination of factors: destiny, an understanding of each partner's sign, and the willingness to work through the highs and lows of love's natural progression. Each of the twelve signs of the Zodiac corresponds to a phase of a romance, from passionate courtship represented by fiery Aries to the commitment and soul bonding of watery Pisces. Each Sun sign has its gifts: the discernment of Virgo or the enthusiasm of Sagittarius, for example, and its corresponding challenges: the self-doubt of Taurus or the unpredictability of Aquarius that it brings to a relationship. By understanding that the choice to love and grow with your partner is yours and yours alone, Soul Signs in Love shows you how to enjoy and revel in the unfolding process of discovery and revelation that underlies lasting love.
