Understanding and Cultivating Well-being for the Pediatrician Sarah Webber, Jessica Babal, Megan A. Moreno, 2022-11-30 With growing attention surrounding the importance of physician well being organizations are institutionalizing physician well being efforts Promoting well being requires a understanding of the components barriers and promoters of physician well being While other books exist in this space many are focused on individual resilience building strategies or are too broad to apply to specific groups of physicians such as pediatricians A critical gap in the existing literature is a book that uses an evidence based model of well being and applying this model to unique experience of pediatricians Rather than a work centric approach the physician well being model we describe in this book takes a comprehensive approach to well being integrating evidence and expertise from a broad body of well being research and translating this knowledge to the lives and work of pediatricians Further while other texts focus on negative consequences of a lack of well being such as burnout this text is organized around defining understanding and optimizing well being Each chapter will provide strategies for both individual pediatricians and healthcare organizations to consider to improve pediatrician well being at their institution This book integrates well being science from disciplines outside of medicine offering innovative strategies to addressing this important issue This is a book designed for pediatricians health care leaders and organizations looking to better understand and implement strategies for pediatrician well being The authors will take readers on a journey through the history of physician well being leading to the current state of well being in the context of modern medical practice technology society policy and family life Using an integrated model of physician well being readers will learn about the current state solutions tensions and future directions of physician well being

Beyond Bias Centers of Disease Control, 2015 This first expert group meeting on the cultural contexts of health and well being was convened by the WHO Regional Office for Europe on 15 16 January 2015 As part of the adoption of Health 2020 the European policy for health and well being WHO Member States agreed to a measurement framework which would measure and report on objective and subjective well being However practical challenges remain particularly with respect to the influence of cultural factors on well being and well being measurement The aim of this meeting was to provide advice on how to consider the impact of culture on health and well being and how to communicate findings from well being data across such a culturally diverse region as Europe This report outlines the detailed recommendations made by the expert group in relation to each of these objectives

Handbook of Migration and Health Felicity Thomas, 2016-12-30 Migration is now firmly embedded as a leading global policy issue of the twenty first century Whilst not a new phenomenon it has altered

significantly in recent decades with changing demographics geopolitics conflict climate change and patterns of global development shaping new types of migration Against this evolving backdrop this Handbook offers an authoritative overview of key debates underpinning migration and health in a contemporary global context **The Spirit of Global Health** Simon Peng-Keller,Fabian Winiger,Raphael Rauch,2022-07-21 Since the beginning of the World Health Organization many of its staff members regional offices member states and directors general have grappled with the question of what a spiritual dimension of health looks like and how it might enrich the health policies advocated by their organisations Contrary to the wide spread perception that spirituality is primarily related to palliative care and has emerged relatively recently within the organisation this study shows that its history is considerably longer and more complex and has been closely connected to the WHO s ethical aspirations its quest for more holistic and equitable healthcare and its struggle with the colonial legacy of international health organisations While such ideals and struggles silently motivated many of the key actors and policies such as the provision of universal primary healthcare which for decades have embodied the organisation s loftiest aspirations the WHO s official relationship with spirituality advanced in fits leaps and setbacks At times creative and interdisciplinary at others deeply political this process was marked by cycles of institutional forgetting and remembering Rather than as a triumph of religious lobbyists this book argues the spiritual dimension of health may be better understood as a ghost that has haunted and continues to haunt the WHO as it comes to terms with its mandate of advancing health as a state of complete well being available to all *Embodying Borders* Laura Ferrero,Ana Cristina Vargas,Chiara Quagliariello,2021-01-14 Based on extensive field research the essays in this volume illuminate the experiences of migrants from their own point of view providing a critical understanding of the complex social reality in which each experience is grounded Access to medical care for migrants is a fundamental right which is often ignored The book provides a critical understanding of the social reality in which social inequalities are grounded and offers the opportunity to show that right to health does not correspond uniquely with access to healthcare **Beyond Bias - Exploring the Cultural Contexts of Health and Well-being Measurement** ,2015 *Health and Illness in Close Relationships* Ashley P. Duggan,2019-02-07 The first book to give an integrated theoretical framework for understanding the complexities of health and illness in close relationships *For Good Measure Advancing Research on Well-being Metrics Beyond GDP* OECD,2018-11-27 The 2009 Commission on the Measurement of Economic Performance and Social Progress Stiglitz Sen Fitoussi Commission concluded that we should move away from over reliance on GDP when assessing a country s health towards a broader dashboard of indicators *Promoting Health: A Practical Guide - E-Book* Angela Scriven,2017-06-30 Promoting Health A Practical Guide continues to offer health promotion workers with an essential guide to day to day planning and service delivery in a variety of different areas of practice Describes the international and national strategies and movements that have emerged to reduce inequalities in health Examines the concept of need and provides tools to assist in the identification of health promotion needs Contains almost 50

exercises and 20 Case Studies to engage readers and reinforce learning Describes the knowledge and skills required to draw on evidence undertake research and use various techniques to inform and prioritise health promotion practice Shows how to ensure that health promotion work contributes to local and national strategies Looks at the concept of value for money via learning ways of thinking based in health economics Shows how to develop key skills that include information management report writing time management project management and change management Looks at the effectiveness of good communication skills and emphasises the importance of establishing high quality professional relationships Provides practical guidance on the preparation of communication tools which range from leaflets posters and display boards to the use of radio and television Describes changes to the structure and organisation of public health within the UK including the latest national standards for work in health promotion and public health Outlines new research on the comparative effectiveness of different approaches to health promotion and public health practice Explores the development of public health communication strategies including social marketing social media campaigns and use of pressure groups and nudging Highlights the latest current thinking across a variety of different settings to ensure relevance to a broad array of practitioners working across differing settings Explores the increasing use of the internet to help individuals monitor and support their own wellbeing

Beyond Facts Carmen Pagés, Carlos Scartascini, Rita Funaro, Lucía Madrigal, Suzanne Duryea, Juan Camilo Chaparro, María Victoria Rodríguez-Pombo, Eduardo Lora, Pablo Sanguinetti, William D. Savedoff, Juan Carlos Navarro, Aimee Verdisco, Mariana Alfonso, Andrew Powell, 2008-01-01 Traditionally the concept of quality of life has been viewed through objective indicators Beyond Facts looks at quality of life through a new lens namely the perceptions of millions of Latin Americans Using an enhanced version of the recently created Gallup World Poll that incorporates Latin America specific questions the Inter American Development Bank surveyed people from throughout the region and found that perceptions of quality of life are often very different from the reality These surprising findings have enormous significance for the political economy of the region and provide a wealth of information for policymakers and development practitioners to feast upon Extended Measures of Well-being Larry M. Radbill, Kathleen Short, 1992

Implicit Bias and Mental Health Professionals: C. Curtis Holmes Ph.D., Courtney Lamb LMSW, 2023-06-05 As mental health professionals working at a child advocacy center CAC both authors have experienced and researched issues that impact each professional field which makes up the multidisciplinary team MDT These fields primarily include mental health professionals of children school counselors and school social workers forensic interviewers child and family advocates sexual assault nurse examiners CAC administrators Child Protective Service investigators law enforcement investigators prosecutors and other attorneys and judges Even mental health professionals of children who never intended to specialize in the CAC world will inevitably be working with numerous clients with a trauma and abuse history Therefore it is best if all mental health professionals of children become more aware of the CAC world of the workings of MDTs and of a greater understanding of systems and of

implicit bias that influence thinking recommendations and professional behavior with cases of child abuse

Burnout, Wellbeing and Resilience of Healthcare Workers in the Post-COVID World Mansoor Malik, Kim Walker, Kristina R. Weeks, Tanvi Bafna, Mohua Chakraborty Choudhury, 2025-10-09 Healthcare workers burnout is a global issue COVID 19 pandemic had a significantly negative effect on the morale and resilience of healthcare workers High rates of depression anxiety and PTSD have been well documented across the globe for healthcare workers contributing to high turnover and attrition rates Occupational burnout not only affects the healthcare workers but is also detrimental to patient safety and organizational productivity Burnout should be seen as a continuum ranging from job dissatisfaction to psychiatric morbidity It is important to educate health professionals and employ primary and secondary preventative strategies at every stage of burnout for the

optimal functioning of healthcare systems Although numerous observational studies highlight high rates of burnout among healthcare workers there has been little research to demonstrate effectiveness of interventions to support mental well being of healthcare workers during stressful times Investigation of potential resilience building interventions is especially important to prepare for the next pandemic or large scale disaster In addition robust evidence based guidelines and best practices are needed to reduce the high rates of burnout and promote wellbeing in healthcare workforce by integrating and addressing the full spectrum of occupational organizational social personal and psychological factors There are significant gaps in the existing literature including lack of prospective longitudinal intervention studies research focusing the needs of minority healthcare workers and identifying barriers to promote institutional wellbeing culture **Spirituality and Mental**
