Carbonneau on International Arbitration Thomas E. Carbonneau, 2011-01-01 The chapters of this volume represent the majority of Professor Carbonneau s scholarly writings on the subject of international commercial arbitration They reflect his interest over the course of thirty years of law teaching in international litigation comparative law and of course international arbitration Some of the chapters are of a recent vintage while others were written a decade or two ago Whatever their date of production the chapters have a continuing professional interest Each addresses some of the major issues of trans border arbitration law A number of chapters emphasize the importance of courts in developing and maintaining a legal culture that is hospitable to arbitration The work of the courts has been instrumental to the reception of arbitration in the United States and in several European jurisdictions The courts can make or break arbitration by upholding arbitration agreements and enforcing arbitral awards Other chapters underscore that arbitration can operate as a complete legal system It not only provides workable trial procedures but arbitrators can also create law in their rulings With the addition of an internal arbitral appellate mechanism arbitrations can function with almost absolute independence The world law on arbitrations seems to favor the a national and a juridical operation of the arbitral process A few of the chapters recognize that arbitration is being increasingly employed to resolve political or mixed political and commercial disputes Investment arbitration and BITs are the most recent expression of this development it had been apparent in WTO and NAFTA dispute resolution The Iran U S Claims Tribunal presented the first great occasion for assessing the vocation of arbitration in a mixed dispute situation While arbitration has made

significant inroads in this area political sovereignty remains resistant to the imposition of limitations In many less visible political cases determinations are nonetheless made and rendered enforceable The concluding chapters address more specific developments in the field of ICA A number of cases point to the strong perhaps overweening support of the judiciary for arbitration The courts in some jurisdictions support arbitration unequivocally and are bent upon a single outcome no matter the impact on doctrine Lawyer presence in the arbitral process has led to increased formalization in some proceedings The judicialization of arbitration tilts the process toward the protection of rights and hinders its ability to function effectively and reach finality Lawyers can readily misunderstand and undermine the gravamen of arbitration The concluding chapters also establish that the UK Arbitration Act 1996 is one of the world's outstanding arbitration statutes It rivals and bests the UNCITRAL Model Law on ICA and is the equal of the French codified law on arbitration Finally the express text of the New York Arbitration Convention appears to have been altered significantly by court practice The possible limitations of national law have been neutralized and the provisions of the Convention articulate a truly trans border regulation of the enforcement of awards In sum the chapters in this book reflect the author's lifetime work in the area of international arbitration and are required reading for all those practicing in the field law students arbitrators academics and practicing lawyers

Its informality and expedition puts in peril the fundamental right of the recalcitrant to delay proceedings. Dr Ahuja has assiduously articulated the measures aptly christened Guerrilla Tactics used to disrupt and derail arbitrations. Jemielniak, Przemysław Miklaszewicz, 2010-04-08 Capturing the Change Universalising Tendencies in Legal Interpretation Joanna Jemielniak and Przemysław Miklaszewicz International and supranational integration on the European continent as well as the harmonisation of the rules of international trade and the accompanying development and global popularity of the resolution of commercial disputes through arbitration constantly exerts a considerable influence on modern legal systems The sources of each of these phenomena are different and their action is dissimilar Each can be described as reaching either from the top to the bottom through the direct involvement of interested States and consequently affecting their internal legal systems international and supranational integration harmonisation of trade regulations through public international law instruments or bottom up as a result of activity by private parties leading to the achievement of uniform practices and standards arbitration *lex mercatoria* Nonetheless they both enrich national legal cultures and contribute to transgressing the limits of national local particularisms in creating interpreting and applying the law The aim of this book is to demonstrate how these processes have influenced the interpretation of law how they have shaped the methods and techniques of the interpretation and with what consequences for the outcomes of the interpretative procedures In assessing the extent of this influence due regard must be paid to the fact that the interpretation of law is not in principle directly determined by the provisions of law itself *Brazil Tax, Law and Business Briefing, 2002*, 2002 Discourse and Practice in International Commercial Arbitration Christopher N. Candlin, 2016-05-23 It is increasingly held that international commercial arbitration is becoming colonized by litigation This book addresses in a range of ways and from various locations and sites those aspects of arbitration practice that are considered crucial for its integrity as an institution and its independence as a professional practice The chapters offer multiple perspectives on the major issues in play highlighting challenges facing the institution of arbitration and identifying opportunities available for its development as an institution The evidence of arbitration practice presented is set against the background of practitioner perceptions and experience from more than 20 countries The volume will serve as a useful resource for all scholars and practitioners interested in the institution of arbitration and its professional practices *International Commercial Arbitration and the Arbitrator's Contract* Emilia Onyema, 2010-04-05 This book examines the formation nature and effect of the arbitrators contract addressing topics such as the appointment challenge removal and duties and rights of arbitrators disputing parties and arbitration institutions The arguments made in the book are based on a semi autonomous theory of the juridical nature of international arbitration and a contractual theory of the legal nature of these relationships From these premises the book analyses the formation of the arbitrator's contract in both ad hoc and institutional references It also examines the institution's contract with the disputing parties and its effect on the arbitrator's contract under institutional references The book draws from national arbitration laws and institutional rules in various jurisdictions to give a global view of the issues examined in it The arbitrator's contract is analysed from a global perspective of arbitral law and practice with insights from various jurisdictions in Africa Asia Europe North and South

America The primary focus of the book is an analysis of the formation of the arbitrator's contract and the terms of this contract and the institution's contract The primary question of the consequences if any of the breaches of the terms of these contracts and its impact on the exclusion or limitation of liability of arbitrators and institutions is also analysed with the conclusion that since these transactions are contractual and the terms can be categorised as in any normal contract then normal contractual remedies can be applied to the breaches of these terms International Commercial Arbitration and the Arbitrator's Contract will be of great value to arbitration practitioners and researchers in arbitration It will also be very useful to students of arbitration on the topics of arbitrators and arbitration institution *Brazil*, 1930 **Brazil Business and Legal Briefing, 2000** Scott Studebaker, 2000 International Arbitration in Times of Economic Nationalism Bjorn Arp, Rodrigo Polanco, 2022-07-06 Numerous developments across the world in recent years bear witness to States increasing skepticism about the benefits of international cooperation and the efficiency of international economic law understood as a multilateral set of rules equally binding on all States This timely book reviews situations where this new economic nationalism may impact the way arbitration in both commercial and investment disputes is practiced Distinguished international arbitrators and academic experts analyze a wide array of topics covering a broad spectrum of juristic traditions geographic areas foreign investment protection laws and dispute resolution mechanisms and issues Topics covered include the following evolution of the definitions of arbitrable standards amendments to procedural rules States policy choices as reflected in recent investment treaties procedural trends to restrict access to investment arbitration the effects of the Achmea decision in the European Union growing use of the public policy exception dispute settlement of public private partnership agreements and diversification of dispute resolution methods e.g. business courts An important feature of the book is the ability it offers to compare various contemporary transformations of dispute settlement mechanisms with attention to developments in a number of jurisdictions including the United States the European Union China Canada Switzerland Turkey and the Latin American countries With its comprehensive analysis of how economic nationalism may lead to limiting the jurisdictional procedural and substantive scope of arbitration the authors underscore the crucial importance of a robust system of international arbitration of economic disputes to ensure a stable and secure world order The global coverage of the contributions and the insightful views offered in them speak eloquently about their usefulness and outreach for arbitration practitioners and scholars as well as for professionals involved in drafting policies for economic development or in the negotiation of investment agreements **Annual Forum** American Bar Association.
