Architectural Graphic Standards:

Architectural Graphic Standards The American Institute of Architects, 2007-03-30 Since 1932 the ten editions of Architectural Graphic Standards have been referred to as the architect's bible. From site excavation to structures to roofs, this book is the first place to look when an architect is confronted with a question about building design. With more than 8,000 architectural illustrations including both reference drawings and constructible architectural details, this book provides an easily accessible graphic reference for highly visual professionals. To celebrate seventy-five years as the cornerstone of an industry, this commemorative Eleventh Edition is the most thorough and significant revision of Architectural Graphic Standards in a generation. Substantially revised to be even more relevant to today's design professionals, it features an entirely new innovative look and design created by Bruce Mau Design that includes a modern page layout, bold second color, and new typeface. Better organized, a completely new organization structure applies the UniFormat classification system which organizes content by function rather than product or material. Expanded and updated coverage of inclusive, universal, and accessible design strategies. Environmentally sensitive and sustainable design is presented and woven throughout, including green materials, LEEDS standards, and recyclability. A bold, contemporary new package as impressive as it is open. The Eleventh Edition features a beveled metal plate set in a sleek black cloth cover. Ribbon Markers included as a convenient and helpful way to mark favorite and well-used spots in the book. All new material thoroughly reviewed and edited by hundreds of building science experts and experienced architects. All new details and content including new structural technologies, building systems, and materials. Emphasis on sustainable construction, green materials, LEED standards, and recyclability. Expanded and updated coverage on inclusive, universal, and accessible design strategies. Computing technologies including Building Information Modeling (BIM) and CAD/CAM. New information on regional and international variations, accessibility requirements keyed throughout the text, new standards for conducting, disseminating, and applying architectural research. New and improved details. With some 8,500 architectural illustrations including both reference drawings and constructible architectural details, Architectural Graphic Standards continues to be the industry's leading, easily accessible graphic reference for highly visual professionals.

Architectural Graphic Standards Charles George Ramsey, Harold Reeve Sleeper, 2011-01-13 The new student edition of the definitive architectural reference. For seventy-five years Architectural Graphic Standards has been the go-to reference for architects, builders, and engineers. Revised for the first time since 2000, Architectural Graphic Standards Student Edition gives students their own handy resource. Carefully abridged from the Eleventh Edition of Architectural Graphic Standards, this Student Edition features the same richly detailed graphics and text that have made Architectural Graphic Standards a classic, but updated and reorganized in a way that is relevant to today's student. Thousands of illustrations and a rich index offer immediate access to hundreds of architectural elements, while the wide variety of topics covered makes this work relevant throughout a student's

architecture education and into the early stages of professional practice With a wealth of information for the student preparing for professional practice this new edition Covers building standards and practices materials and systems and details for every type of project Follows CSI's Unifomat a classification system that closely matches an architect's workflow Features completely updated content with a wide variety of standard architectural details Offers an ancillary Web site featuring sample curriculums student exercises classroom projects PowerPoint slides and more
