*Drawings for Architects* Natascha Meuser, 2015 The drawing architect for centuries this term was just as tautological as the baking baker or the gardening gardener Nevertheless in this compendium one has to begin with reference to the fact that the acquisition of drawing skills is by no means a minor field of study for architects Design methodology also referred to as methodology of space and the representation of the human body plays an important role once more in the present day field of architectural activity This book explores options for illustration as well as contemporary practice with architectural presentation It deals with the following topics The history and theory of architectural drawing covering a wide spectrum of issues in terms of art and architectural history examples are provided by two design collections ten architects present their architectural concepts based on a selection of drawing and presentation techniques ten exercises for freehand drawing demonstrative examples and practical exercises which illustrate technical drawing and the fundamental principles of perspective

*Conceptual Sketches in Architectural Design* Ali Khiabani, R. Chadorkafour, 2014-04-25 Unfortunately our knowledge has lost its natural quality We suffer a lot to produce or educate a science think hardly and spend much energy while presence of thoughts may be seen relying on our innate power being familiar with mind function being tranquil and avoiding mental disturbances What is important in realization of this kind of thought is to listen to the mind voice and draw perfectly and freely what is forced to draw Conceptual sketch is a way to know mind and more coordinate with how it is used in creation of art works I daresay that 80% of design is related to mind control capability and the rest is an opportunity provided by design tools and techniques from pencil to computer to imagine ideas and mental images Thus conceptual sketches conceptual models and computerized structures made using this technique may be called kind of creative thinking enlightening dim mind of human resulting from innovations and imperfections of educational systems grants them self confidence and empowers artists creativity Sketches of the book are not designed during design process of any special architectural project rather they come of the architect's thought in a world of fantasy and imagination resulted in exploration of different ideas from form and space
