accommodation convergence un accommodation divergence causes pressure tension pulling on in the eye alters the eyes shape and lens retina disrupts refraction focus of light rays in the eye on the retina and the clarity of vision When the mind is strained tense the brain and retina do not communicate function together at optimum level Function of the retina is lowered Relaxing the mind returning normal eye movement relaxes the outer inner eye muscles returns the eyes lens retina to normal shape with clear vision Website <https://cleareyesight.com/batesmethod/info>
