Between Colliding Worlds Between Colliding Worlds:

Between Colliding Worlds Jonathan Malloy, Institute of Public Administration of Canada, 2003-01-01 Jonathan Malloy's *Between Colliding Worlds* examines the relationship between governments and external activists through a comparative study of policy units dedicated to aboriginal and women's issues in Australia and Canada. Malloy identifies these units or special policy agencies as sitting on the boundary between the world of permanent public servants and that of collective social movements working for broad social and political change. These agencies at once represent the interests of social movements to government while simultaneously managing relations with social movements on behalf of government and thus operate in a state of permanent ambiguity. Malloy contends that rather than criticizing these agencies for their inherently contradictory nature we must reconsider them as effectively dealing with the delicate issue of bridging social movements with state politics. In other words, the very existence of these special policy agencies provides a forum for social movements and the state to work out their differences. Relying heavily on interviews with public servants and external activists, Malloy argues convincingly that special policy agencies, despite or because of their ambiguous relationship to different communities, make critical contributions to governance.

Colliding Worlds Simone Marchi, 2021 Drawing on the latest research, Simone Marchi describes the vital role that collisions in space have played in the formation and evolution of the solar system and inner planets. Comparing the evidence from the surfaces of our planetary neighbours, he explains the impact of these strikes on the Earth and our Moon and on the evolution of life.

Tales of Two Cities Sylvia Bashevkin, 2011-11-01 In the age of globalization, state restructuring is changing the political landscape. How does reshaping local government affect citizen involvement in public life? As cities move between centralized and decentralized governance and conservative and progressive leadership, what brings out the best and the worst in civic engagement? In this thought-provoking book, Sylvia Bashevkin examines the consequences of divergent restructuring experiences in London and Toronto. By focusing on the forced amalgamation of local boroughs in Toronto and the creation of a new metropolitan authority in London, *Tales of Two Cities* explores the fallout for women as urban citizens. Ultimately, context is crucial to whether municipal change signals pessimism or promise. Clear, insightful and prescient, *Tales of Two Cities* will appeal to those interested in civic affairs, political inclusion and the future of democracy in major urban centres.

Local Government in a Global World Emmanuel Brunet-Jailly, John F. Martin, 2010-01-01 Contributors provide insights into key themes impacting local governance in two federations with much in common: historically, culturally and politically, Australia and Canada. These essays examine changes in the Australian and Canadian systems through four thematic lenses: citizen participation in government systems; the restructuring and reform of local governments; the use of performance measures and management systems in the administration of local governments; and the relations of local governments within higher levels of governments.
