Between One and One Another Michael Jackson, 2012-01-04 Michael Jackson extends his path breaking work in existential anthropology by focusing on the interplay between two modes of human existence that of participating in other peoples lives and that of turning inward to one s self Grounding his discussion in the subtle shifts between being acted upon and taking action Jackson shows how the historical complexities and particularities found in human interactions reveal the dilemmas conflicts cares and concerns that shape all of our lives Through portraits of individuals encountered in the course of his travels including friends and family and anthropological fieldwork pursued over many years in such places as Sierra Leone and Australia Jackson explores variations on this theme As he describes the ways we address and negotiate the vexed relationships between I and we the one and the many he is also led to consider the place of thought in human life

Re-Thinking the Sociality of the Self Kurt C. M. Mertel, 2025-07-16 This book is the first in a two volume project that provides the first systematic interpretation of Martin Heidegger s fundamental ontology as a critical social ontology It argues that fundamental ontology is at its core an emancipatory enterprise in that it is animated by an intent shared with critical theory viz to make philosophy concrete for the sake of individual and collective freedom Focused on Division One of Being and Time this volume maintains that the possibilities of individual emancipation and self actualization are inextricably bound to their environmental and intersubjective preconditions An adequate ontology of the self therefore is possible only as a social ontology To fulfill its emancipatory aims however it is necessary to show that the fact that individuals are always already appropriated by society does not preclude the possibility of authentic self appropriation Hence this volume critically reconstructs the core commitments of the appropriative approach to social ontology and distinguishes between the foundational and peripheral aspects of fundamental ontology The final part addresses important criticisms that have impeded a fruitful dialogue between fundamental ontology and critical theory to clear the ground for a fresh re appraisal of the former as an emancipatory project
