**Multidisciplinary Dynamics of Mediation** Hugo Luz dos Santos, 2025-09-26 This book casts an analytical eye on the legal dynamics of mediation premised on a multidisciplinary approach This is the very first book to meld mediation and applied psychology with a view to portray the myriad of cognitive biases with which the great bulk of legal actors grapple tussle with in mediation settings The overriding goal of this book is to provide a multidisciplinary comprehensive and full fledged framework to legal dynamics of mediation while emphasizing the paramount importance of incorporative mediation to protect the fundamental rights of the weakest disputant in the room something that has not been done yet This book is the very first one to provide a framework frame of reference to the usage of artificial intelligence in the remit of both mediation settings and Restorative Relationship Session RRS

**Towards a Four-Tiered Model of Mediation** Hugo Luz dos Santos, 2023-02-13 Underpinned by a hybrid methodology ranging from social sciences to human sciences this book parses mediation in four perspectives which stands as an unparalleled methodological approach so far Mediation has long been tethered to piecemeal and haphazard approaches which have flatly failed to capture the gist of the uniqueness of this often poorly latched on and poorly understood dispute resolution mechanism This book argues that in order to fully grasp the richness of such dispute resolution mechanism mediation must be parsed in four tiers The first tier is the social dynamics of mediation The second tier is the cultural dynamics of mediation The third tier is the legal dynamics of mediation The fourth tier is the cross border and cross cultural dynamics of mediation Taken together the four tiers that premise the four tiered model of mediation seek to unlock the finding in view of which law and social reality are tightly interlocked In this vein it is the underlying social reality of a given jurisdiction that should dictate the design of a pre suit court connected mandatory mediation with an easy opt out a central claim of both social dynamics of mediation the first tier of the four tiered model of mediation and legal dynamics of mediation the third tier of the four tiered model of mediation

**The Belt and Road Initiative and Global Governance** Maria Adele Carrai, Jean-Christophe Defraigne, 2020-02-28 This timely book examines the Belt and Road Initiative BRI assessing its effect on the international economic order and global governance more broadly Through a variety of qualitative case studies the book investigates the implementation of the BRI and evaluates its development outcomes both for China and the countries it interacts with under the initiative along with its international implications , *A Model Civil Procedure Code for England and Wales* John Sorabji, 2024-10-14 Civil procedure law is integral to our understanding of access routes to justice dispute resolution and ultimately the rule of law However the field is rapidly changing shifting dispute resolution away from courts and judgments towards other legal pathways such as negotiation mediation arbitration and Ombudsman Similarly the increasing digitisation of society and looming potential of AI will profoundly influence future reforms Civil justice is thus at a critical turning point In response John Sorabji proposes a new model civil procedure code for England and Wales Building on the work of the ALI UNIDROIT Principles of Transnational Civil Procedure and the ELI UNIDROIT Model European Rules of Civil Procedure he articulates a simplified principle based seventeen part approach that covers all major stages from issue to enforcement with sections on costs and funding provisional measures access to evidence and privileges case statements hearings and dispute management Highlighting that civil courts are just one part of a wider civil justice ecosystem Sorabji promotes the wealth of avenues available for dispute resolution and charts how these should be co ordinated in the future He outlines new ways to efficiently incorporate breakthroughs in digitisation and preventive and consensual forms of justice and also explores likely shifts in the purpose of procedural codes as digitisation evolves while underscoring the consistent need for judicial independence and accountability Ultimately Sorabji posits that procedural codes should guide not only the process of litigation but those who design digital procedures and test their propriety in the future *Understanding Due Process in Non-Criminal Matters* Ricardo Lillo Lobos, 2022-07-20 How we understand what procedure is due as a fundamental or constitutional right can have a critical impact on designing a civil procedure Drawing on comparative law and empirically oriented methodologies in this book the author provides a thorough analysis of how procedural due process is understood both in national jurisdictions and in the field of international human rights law The book offers a suitable due process theory for civil matters in general assessing the different roles that this basic international human right plays in comparison with criminal justice In this regard it argues that the civil justice conception of due process has grown under the shadow of criminal justice for too long Moreover the theory answers the question of what the basic requirements are concerning the right to a fair trial on civil matters i e the question of what we can and cannot sacrifice when designing a civil procedure that correctly distributes the risk of moral harm while remaining accessible to people with complex and simple legal needs in order to reconcile the requirements of procedural fairness with social demands for justice This book makes a valuable contribution to the field of civil justice legal design and access to justice by providing an empirically based normative theory regarding the right to a fair

Segatti, 2024-02-29 It is wrong when someone cannot exercise their rights in a court of law because they have no money to pay for a good lawyer because they are too scared of the possible consequences or because they simply don't know that the law protects them But does that mean governments have an obligation to intervene And if so how This book provides the first systematic philosophical theory of equal access to justice It begins by identifying the content of claims to equal access to justice Then it reviews traditional political and legal arguments on the right of access to justice which it argues are both illuminating and insufficient The best comparative way to approach equal access to justice the book argues is to think through the requirements of a moral pre political duty to at times and provisionally pause cool down and listen in other words we ought to demand that governments step in and protect access rights because we have a moral and pre political interest in cultivating our ability to comply with this duty It is the recognition of this duty which best explains both law's potential for promoting as well as its potential for endangering equal justice In closing the book tests this novel theory of equal access to justice against contemporary trends and reforms in procedural law **The Civil Procedure Rules at 20** Andrew

Barton, 2019-12-17 An urgent plea for much needed reforms to legal education The period from 2008 to 2018 was a lost decade for American law schools Employment results were terrible

Applications and enrollment cratered Revenue dropped precipitously and several law schools closed Almost all law schools shrank in terms of students faculty and staff A handful of schools even closed Despite these dismal results law school tuition outran inflation and student indebtedness exploded creating a truly toxic brew of higher costs for worse results The election of Donald Trump in 2016 and the subsequent role of hero lawyers in the resistance has made law school relevant again and applications have increased However despite the strong early returns we still have no idea whether law schools are out of the woods or not If the Trump Bump is temporary or does not result in steady enrollment increases more schools will close But if it does last we face another danger We tend to hope that crises bring about a process of creative destruction where a downturn causes some businesses to fail and other businesses to adapt And some of the reforms needed at law schools are obvious tuition fees need to come down teaching practices need to change there should be greater regulations on law schools that fail to deliver on employment and bar passage Ironically the opposite has happened for law schools they suffered a harrowing near death experience and the survivors look like they re going to exhale gratefully and then go back to doing exactly what led them into the crisis in the first place The urgency of this book is to convince law school stakeholders faculty students applicants graduates and regulators not to just return to business as usual if the Trump Bump proves to be permanent We have come too far through too much to just shrug our shoulders and move on
