Beyond Reason Art And Psychosis Works From The Prinzhorn Collection:

Beyond Reason Bettina Brand-Claussen, Inge Jádi, Caroline Douglas, 1996 In the early 1920s the German art historian and psychiatrist Hans Prinzhorn 1886 1933 amassed a remarkable collection of some 5 000 paintings drawings objects and collages made by patients in European psychiatric institutions His interest unique at the time was twofold to assess the art as creative work and to use it as a way of studying mental illness Prinzhorn s Collection attracted the attention of many artists including Paul Klee and Oskar Schlemmer but by the 1930s when the Nazis declared such work degenerate the Collection fell into disrepair Only in recent decades has it been properly restored and made available for a wider public This catalog accompanied the first exhibition in Britain to foreground the Prinzhorn Collection as a whole The works represented in these pages defy simple categorization The range is extraordinary and the art s startling sophistication inventiveness and beauty inevitably prompt comparison with such artists as Max Ernst and the Surrealists and with Jean Dubuffet Three texts are immensely helpful in providing an understanding of the Collection s importance Bettina Brand Claussen deals with the Collection s origins within the changing culture of postwar Europe Inge Jdi offers a meditation on the ethical interpretative and aesthetic questions in presenting the Collection and Caroline Douglas sets Prinzhorn s endeavor within a broader historical and intellectual context Questions surrounding art and madness are endlessly fascinating no more so than today as science moves to unlock the mysteries of the mind The Prinzhorn Collection will do much to inspire continuing debate on the links between creativity rationality and illness

Prosthetic Gods Hal Foster, 2004 How to imagine not only a new art or architecture but a new self

or subject equal to them In *Prosthetic Gods* Hal Foster explores this question through the works and writings of such key modernists as Gauguin and Picasso F T Marinetti and Wyndham Lewis Adolf Loos and Max Ernst These diverse figures were all fascinated by fictions of origin either primordial and tribal or futuristic and technological In this way Foster argues two forms came to dominate modernist art above all others the primitive and the machine Foster begins with the primitivist fantasies of Gauguin and Picasso which he examines through the Freudian lens of the primal scene He then turns to the purist obsessions of the Viennese architect Loos who abhorred all things primitive Next Foster considers the technophilic subjects propounded by the futurist Marinetti and the vorticist Lewis These new egos are further contrasted with the bachelor machines proposed by the dadaist Ernst Foster also explores extrapolations from the art of the mentally ill in the aesthetic models of Ernst Paul Klee and Jean Dubuffet as well as manipulations of the female body in the surrealist photography of Brassai Man Ray and Hans Bellmer Finally he examines the impulse to dissolve the conventions of art altogether in the drip paintings of Jackson Pollock the scatter pieces of Robert Morris and the earthworks of Robert Smithson and traces the evocation of lost objects of desire in sculptural work from Marcel Duchamp and Alberto Giacometti to Robert Gober Although its title is drawn from Freud *Prosthetic Gods* does not impose psychoanalytic theory on modernist art rather it sets the two into critical relation and scans the greater historical field that they share

Crime and Madness in Modern Austria Rebecca S. Thomas, 2021-02-03 This collection of essays explores the changing history rhetoric politics and representation of crime and madness in modern Austria From the emergence of Viennese modernism to the post modern moment the myths metaphors and realities of crime and madness have unfolded in the shadow of larger cultural questions regarding cultural norms gender war and national identity Historically based contributions illuminate such diverse cultural realities as the evolution of psychiatry as medical practice asylum practices in the early twentieth century and Austrian participation in and responses to terror and war crimes From these investigations proceeds the clear insight that cultural responses to crime and madness are often steeped in mythmaking as much as objective policy and practice Conversely literary and metaphorical representations of crime and madness reveal attitudes and cultural realities about the Austrian society that produced them and which they reflect Specialists from the fields of Austrian history literature and culture studies have collaborated to produce this truly interdisciplinary volume which responses to crime and madness are often steeped in mythmaking as much as objective policy and practice Conversely literary and metaphorical representations of crime and madness reveal attitudes and cultural realities about the Austrian society that produced them and which they reflect

Learning from Madness Kaira M. Cabañas, 2018-09-21 Throughout the history of European modernism philosophers and artists have been fascinated by madness Something different happened in Brazil however with the art of the insane that flourished within the modernist movements there From the 1920s to the 1960s the direction and creation of art by the mentally ill was actively encouraged by prominent figures in both medicine and art criticism which led to a much wider appreciation among the curators of major institutions of modern art in Brazil where pieces are included in important exhibitions and collections Kaira M. Cabañas shows that at the center of this advocacy stood such significant proponents as psychiatrists Osório César and Nise da Silveira who championed treatments that included painting and drawing studios and the art critic Mário Pedrosa who penned Gestaltist theses on aesthetic response Cabañas examines the lasting influence of this unique era of Brazilian modernism and how the afterlife of this outsider art continues to raise important questions How do we respect the experiences of the mad as their work is viewed through the lens of global art Why is this art reappearing now that definitions of global contemporary art are being contested Learning from Madness offers an invigorating series of case studies that track the parallels between psychiatric patients' work in Western Europe and its reception by influential artists there to an analogous but altogether distinct situation in Brazil

Journeys Into Madness Gemma Blackshaw, Sabine Wieber, 2012-06-01 At the turn of the century Sigmund Freud's investigation of the mind represented a particular journey into mental illness but it was not the only exploration of this territory in the Austro-Hungarian Empire Sanatoriums were the new tourism destinations psychiatrists were collecting art works produced by patients and writers

were developing innovative literary techniques to convey a character's interior life This collection of essays uses the framework of journeys in order to highlight the diverse artistic cultural and medical responses to a peculiarly Viennese anxiety about the madness of modern times The travellers of these journeys vary from patients to doctors artists to writers architects to composers and royalty to tourists in engaging with their histories the contributors reveal the different ways in which madness was experienced and represented in Vienna 1900 **Counter Culture Anthology** Patrick Harrington, Terry Burgoyne, 2006-08-01 First published in 1992 Counter Culture was conceived as part of a War of Position against capitalism It represents a vibrant alternative view of popular culture through reviews debate and commentary This anthology is an introduction to a radical new way of looking at our world www.altculture.org
