The Dilemmas of Social Democracies Howard Richards, Joanna Swanger, 2008-01-01 The Dilemmas of Social Democracies seeks to advance the eradication of poverty and the ethical construction of social democracy and sustainable peace Howard Richards and Joanna Swanger argue that the reason that capitalism resists transformation and that social democracy is so hard to achieve is because of the philosophical and institutional underpinnings_ the constitutive rules_ of capitalism the book therefore explores the historical origins of these rules their implications for blocking progress toward social justice and how they can be improved Dare to Care Louis B htlingk, 2011-11-01 Dare to Care a collection of ideas and initiatives to change finance as we know it is a platform for global citizens to work together and maneuver through the world economic and financial crisis The ideas presented within of changing our mindset from a money first to a care first attitude are meant to stimulate thoughts about our current monetary system and economy and how we truly want them to function Author Louis B htlingk presents a workable method for us to change the way we think and feel about money using it instead to support our fellow man the Earth and the gifts we all receive through each other and our planet Dare to Care stresses that with a care first approach money can support our efforts to create a better world without greed or fear of going without B htlingk shares his vision for a love based economy and a care first world using examples of businesses organizations communities and individuals who have made this approach work for them and those they serve Dare to Care encourages readers to approach finance and economics from a new perspective one which urges them to reorganize their own approach to money and empowers them to act and achieve a care first worldview In my 25 years as an entrepreneur there has been a rule to keep one s heart out of business decisions Dare to Care boldly disrupts this rule with a vision of finance and economics that integrates heart and mind left and right brain and weaves hard economic facts with lyrical poetry It highlights thriving businesses banks and non profits which employ Care First vs Money First as a long overdue pathway to true sustainability for all people of the world Leslie Danziger Co founder and former Chairman of Solaria Corporation USA Louis B htlingk has given us a clear way to create a renewed sense of how to assess the tools we have and our needs The poetry of Dare to Care is a personal policy that should become the basis of a newly defined economic policy for all How do we turn it into a new course book for candidates seeking Economic PhD degrees Michaela Walsh President Founder of Women s World Banking USA LOUIS B HTLINGK is a visionary who has worked as a counselor for more than 30 years With his wife Sandra he has created multiple platforms with which to address the money issues that individuals and companies experience Louis is also the creator of the Meeting the Mystery of Money workshop which has been held throughout the U S the U K and the Netherlands and helps individuals to reorganize their finances and lives with a care first approach You can learn more

about the work Louis and Sandra do on their website www.carefirstworld.com Life, Money and Illusion Mike Nickerson, 2009-09-01 In recent years unchecked growth has brought us to the brink of economic and environmental collapse Life Money and Illusion was inspired by the dilemma of having an economic structure that has to grow to remain healthy while facing the finite limits of our planet This revised and updated edition launches a review of economic expansion It examines how growth came to be a goal and how that goal though once beneficial is now the propellant for catastrophe Then by showing how the economy can be restructured to remain within planetary limits it points the way to a sustainable future Life Money and Illusion advocates change by shifting the dominant economic paradigm from growth to sustainability Techniques include Measuring progress with social and environmental indicators along with economic ones Encouraging investment in community Practical changes such as full cost accounting tax shifting and monetary reform Honoring the Golden Rule instead of the Rule of Gold Focusing more on living than on stuff An engaging and empowering vision of a future that celebrates humanity's extraordinary ability to adapt and evolve Life Money and Illusion will appeal to social activists business people students environmentalists financial planners economists parents grandparents and anyone else with a stake in the future **Islam Encountering Globalisation** Ali Mohammadi, 2012-11-12 One of the greatest dilemmas facing Muslims today is the fact that Muslim culture is often seemingly incompatible with the culture of the modern Western world and the features associated with it technological progress consumerism and new electronic communication all of which have the potential for a homogenizing effect on any culture This book explores many key aspects of the globalisation process discussing how Muslim countries are coping with globalisation as well as considering how the West is responding to Islam

The Real Wealth of Nations Riane Eisler, 2007 Many people are fed up with cold hearted economic rules and practices This book offers a holistic model for economics that goes beyond the confines of conventional models It invites us to leave behind our preconceived notions and to change our economic systems and lives in ways that meet human needs and aspirations The Post-Corporate World David C. Korten, 2010-05-07 From the bestselling author of When Corporations Rule the World An extensively researched powerfully argued eye opening critique of how today's corporate capitalism is destroying the things of real value in the world like cancer destroys life Portrays a hopeful future alternatives to a corporate dominated and money ruled world in showing how to restore health to markets democracy and every day life Offers practical suggestions for individuals who want to contribute to the process of change Co published with Kumarian Press There is a deep chasm between the promises of the new global capitalism and the reality of social breakdown spiritual emptiness and environmental destruction it is leaving in its wake In this important book David Korten makes a compelling and well documented case that capitalism is actually delivering a fatal blow not only to life but also to democracy and the market Among his startling ideas Capitalism is a pathology that commonly afflicts market economies in the absence of vigilant public oversight Since the economy internal to a corporation is a planned economy the current consolidation of economic control

under a handful of global corporations is a victory for central planning not the market economy The alternative to the new global capitalism is a global system of thriving healthy market economies that function as extensions of healthy local ecosystems to meet the livelihood needs of people and communities Radical as such proposals may seem they actually reflect processes that are steadily gaining momentum around the world The Post Corporate World provides a vision of what s needed and what s possible as well as a detailed agenda for change Korten shows that to have a just sustainable and compassionate society concentrated absentee ownership and footloose speculative capital as embodied in the global for profit public corporation must be eliminated in favor of enterprises based on patient rooted stakeholder ownership limited to those who have a stake in the firm as a worker supplier customer or member of the community in which it is located Korten outlines numerous specific actions to free the creative powers of individuals and societies through the realization of real democracy the local rooting of capital through stakeholder ownership and a restructuring of the rules of commerce to create mindful market economies that combine market principles with a culture that nurtures social bonding and responsibility Like Korten s previous bestseller When Corporations Rule the World this provocative book is sure to stimulate national dialogue and debate and inspire a bevy of grassroots discussions and initiatives The Post Corporate World presents readers with a profound challenge and an empowering sense of hope

Breathing: Violence In, Peace Out Ivana Milojevic, 2013-10-01 An investigation into the long term impact of transgenerational trauma and the possibilities for healing this book explores the links between personal histories and world events and helps us to understand life s dualities violence and peace self and other stability and change slavery and freedom Author Ivana Milojevic asks How does violence change us Is it possible to change the inner landscape of one s thinking in the midst of pain and suffering and If this is our past how might our future be different Oscillating between two voices Milojevic journeys between the personal breathing in which describes her experience of violence while the second academic voice breathing out tries to make sense of it The rhythm created by inhaling and exhaling reflects not only what we take from the world but also what we give back to it Breathing is an inquiry into alternative futures as Milojevic explores a range of possibilities both for each of us personally and for the world **A**

Game As Old As Empire Steven Hiatt, 2007-02-28 John Perkins controversial and bestselling expos Confessions of an Economic Hit Man revealed for the first time the secret world of economic hit men EHMs But Perkins Confessions contained only a small piece of this sinister puzzle The full story is far bigger deeper and darker than Perkins personal account revealed Here other EHMs journalists and investigators join Perkins to tell their own stories providing the first probing and expansive look into this pervasive web of systematic corruption With chapters spotlighting how specific countries around the globe have been subverted A Game As Old As Empire uncovers the inner workings of the institutions behind these economic manipulations The contributors detail concrete examples of how the economic hit man game is still being played an officer of an offshore bank hiding hundreds of millions of dollars in stolen money IMF advisers slashing Ghana s education and health

programs a mercenary defending a European oil company in Nigeria a consultant rewriting Iraqi oil law and executives financing warlords to secure supplies of coltan ore in Congo Together they show how this system of corruption and plunder operates in real life and reveal the price that the rest of the world must pay as a result Most important A Game As Old As Empire connects the dots showing how the various pieces of this system come together to create the world s first truly global empire
