Beyond Opinion Beyond Opinion:

Beyond Second Opinions Judith Steinberg Turiel, 2023-11-15 *Beyond Second Opinions* is both an exposé of the risks errors and distortions surrounding fertility medicine and an authoritative guide for people seeking treatment. Accessible, comprehensive and extremely well informed, this book takes the reader beyond hype to the hard data on diagnoses and treatments. Judith Steinberg Turiel, a consumer health activist and herself a veteran of fertility treatments, uses the most up to date medical literature to shed new light on difficult decisions patients face today and on reproductive questions society must begin to address now. Those who are seeking a more balanced perspective to help them make better, more informed decisions will find a wealth of information about current reproductive interventions, from simple fertility pills to dazzling experimental options, as well as a discussion of the non-medical forces, economic and political, that shape an individual's treatment choices and reproductive outcomes. Despite quantities of information showered upon patients, they remain woefully misinformed: some fertility treatments may actually reduce chances for a successful pregnancy and threaten a patient's health. Turiel looks beyond surface claims to the real information, often uncovering counterintuitive findings and sometimes scandalous revelations. She exposes a realm of unregulated expansion, unscientific experimentation and recent scandal over stolen embryos. Weaving together first-hand accounts, compelling stories, a range of scientific information and lively anecdotes, Turiel addresses the persistent gulfs that separate medical professionals and health care consumers. In the process, she arms laypeople with what they might not learn about infertility practices from doctors' patient education brochures and the newspaper. Beyond Habermas Christian J. Emden, David Midgley, 2012-11-01 During the 1960s the German philosopher Jürgen Habermas introduced the notion of a bourgeois public sphere in order to describe the symbolic arena of political life and conversation that originated with the cultural institutions of the early eighteenth century. Since then the public sphere itself has become perhaps one of the most debated concepts at the very heart of modernity. For Habermas, the tension between the administrative power of the state with its understanding of sovereignty and the emerging institutions of the bourgeoisie—coffee houses, periodicals, encyclopedias, literary culture etc.—was seen as being mediated by the public sphere, making it a symbolic site of public reasoning. This volume examines whether the public sphere remains a central explanatory model in the social sciences, political theory and the humanities.

Beyond Common Sense Eugene

Borgida, Susan T. Fiske, 2008-04-30 *Beyond Common Sense* addresses the many important and controversial issues that arise from the use of psychological and social science in the courtroom. Each chapter identifies areas of scientific agreement and disagreement and discusses how psychological science advances our understanding of human behavior beyond common sense. Features original chapters written by some of the leading experts in the field of psychology and law including Elizabeth Loftus, Saul Kassin, Faye Crosby, Alice Eagly, Gary Wells, Louise Fitzgerald, Craig Anderson, and Phoebe Ellsworth. The 14 issues addressed include eyewitness identification, gender stereotypes, repressed memories, Affirmative Action, and the death penalty. Commentaries written by leading social science and law scholars discuss key legal and scientific themes that emerge from the science chapters and illustrate how psychological science is or can be used in the courts. **Beyond Opinion: Living the Faith We Defend** Ravi Zacharias, 2010. Addresses issues such as the validity of the Bible, the hypocrisy of its followers, and the need to make a new statement on faith, allowing Christians everywhere to simultaneously defend the faith and be transformed by it into people of compassion. **Beyond Open Skies** Brian F. Havel, 2009-01-01. *Beyond Open Skies* offers a systematic comparative analysis of the legal and policy dimensions of airline deregulation by federal fiat in the United States and by supranational collaboration in the European Union. The book draws upon a variety of sources including very recent developments in U.S. and EC international aviation law, policy, and diplomacy to propose a genuine multilateral air transport system. It examines the potential of the open skies initiative in the aftermath of the new U.S.-EC air transport agreement to inspire a genuine globalization of the world's air transport industry in such crucial aspects as the following: cabotage, ownership, and citizenship requirements, route selection, airline identity, capacity, pricing, regimes, competition, and public aid, regulatory harmonization, labor laws, provisions for charter and/or cargo transportation, fair operation of and access to computer reservations systems, authorization of code sharing arrangements, alliances, and antitrust immunity, and dispute resolution. *Beyond Occupation* Virginia Tilley, 2012-09-06. Is Israel following international law? This collection looks at three contentious terms that arise in contemporary arguments about Israel's practices towards Palestinians: occupation, colonialism, and apartheid, and how they are manipulated by the Israeli state. These essays present conclusive evidence that Israel's administration of the Palestinian territories is consistent with colonialism and apartheid. Moreover, these practices are deliberate Israeli state policies which are imposed on the Palestinian population under military occupation. *Beyond Occupation* raises serious implications for the legality and legitimacy of Israel's continuing occupation, highlighting the responsibility of the entire international community. *Beyond Facts* Carmen Pagés, Carlos Scartascini, Rita Funaro, Lucía Madrigal, Suzanne Duryea, Juan Camilo Chaparro, María Victoria Rodríguez-Pombo, Eduardo Lora, Pablo Sanguinetti, William D. Savedoff, Juan Carlos Navarro, Aimee Verdisco, Mariana Alfonso, Andrew Powell, 2008-01-01.
