Challenging Anthropocentrism in Eco-Science Fiction Novels Fatma Gamze Erkan, 2024-01-03 This book explores the relationship between humanity and nature while challenging the notion that anthropocentric behaviour causes the environmental catastrophes depicted in the four selected British eco science fiction novels These novels are John Christopher's *The Death of Grass* 1956 J G Ballard's *The Drought* 1965 Brian Aldiss's *Earthworks* 1965 and John Brunner's *The Sheep Look Up* 1972 all of which fictionalise the fact that the consequences of environmental problems can be diverse but equally serious This book examines how even the smallest damage caused by human beings to the environment negatively affects them other living beings and the ecosystem they need to live and flourish In conjunction with these the factors and conditions that push characters in the novels to ignore and harm the environment are also scrutinised While examining how and why the environmental problems in the novels have arisen it is evaluated whether the authors propose solutions to these problems and if so what they are

State of Emergency Dominic Sandbrook, 2011-05-26 In the early 1970s Britain seemed to be tottering on the brink of the abyss Under Edward Heath the optimism of the Sixties had become a distant memory Now the headlines were dominated by strikes and blackouts unemployment and inflation As the world looked on in horrified fascination Britain seemed to be tearing itself apart And yet amid the gloom glittered a creativity and cultural dynamism that would influence our lives long after the nightmarish Seventies had been forgotten In this brilliant new history Dominic Sandbrook recreates the gaudy schizophrenic atmosphere of the early Seventies the world of Enoch Powell and Tony Benn David Bowie and Brian Clough Germaine Greer and Mary Whitehouse An age when the unions were on the march and the socialist revolution seemed at hand but also when feminism permissiveness pornography and environmentalism were transforming the lives of millions It was an age of miners strikes tower blocks and IRA atrocities but it also gave us celebrity footballers and high street curry houses organic foods and package holidays gay rights and glam rock For those who remember the days when you could buy a new colour television but power cuts stopped you from watching it this book could hardly be more vivid It is the perfect guide to a luridly colourful Seventies landscape that shaped our present from the financial boardroom to the suburban bedroom
