**Beyond the Two-State Solution** Yehouda Shenhav, 2013-04-18 For over two decades many liberals in Israel have attempted with wide international support to implement the two state solution Israel and Palestine partitioned on the basis of the Green Line that is the line drawn by the 1949 Armistice Agreements that defined Israel's borders until 1967 before Israel occupied the West Bank and Gaza following the Six Day War By going back to Israel's pre 1967 borders many people hope to restore Israel to what they imagine was its pristine pre occupation character and to provide a solid basis for a long term solution to the Israeli Palestinian conflict In this original and controversial essay Yehouda Shenhav argues that this vision is an illusion that ignores historical realities and offers no long term solution It fails to see that the real problem is that a state was created in most of Palestine in 1948 in which Jews are the privileged ethnic group at the expense of the Palestinians who also must live under a constant state of emergency The issue will not be resolved by the two state solution which will do little for the millions of Palestinian refugees and will also require the uprooting of hundreds of thousands of Jews living across the Green Line All these obstacles require a bolder rethinking of the issues the Green Line should be abandoned and a new type of polity created on the complete territory of mandatory Palestine with a new set of constitutional arrangements that address the rights of both Palestinians and Jews including the settlers Catholic Doctrines on the Jewish People After Vatican II

Gavin D'Costa, 2019 This book addresses three controversial and timely questions related to Catholic Jewish dialogue Jewish ritual Catholic Zionism and mission **A Political Theory for the Jewish People** Chaim Gans, 2016 The book presents several interpretations of Zionism and the post Zionist alternatives currently proposed for it as political theories for the Jews It explicates their historiographical philosophical and moral foundations and their implications for the relationships between Jews and Arabs in Israel Palestine and between Jews in Israel and world Jews **Rethinking Statehood in Palestine** Leila

H. Farsakh, 2021-10-26 The quest for an inclusive and independent state has been at the center of the Palestinian national struggle for a very long time This book critically reexamines this quest by exploring the meaning of Palestinian statehood and the challenges that face alternative models to it today Rethinking Statehood in Palestine gives prominence to a young set of diverse Palestinian scholars both men and women to show how notions of citizenship sovereignty and nationhood are being currently rethought within the broader context of decolonization Bringing forth critical and multifaceted engagements with what Palestinian self determination entails within a larger regional context this groundbreaking book sets the terms of debate for the future of Palestine beyond partition **Jews against Zionism: Voices for justice** Ayoub Issa Ayoub Abu

Dayyeh, 2025-04-13 In this biography of Jewish and Israeli humanists who are engaged in literature history journalism philosophy theology politics economics law education and the natural and applied sciences we tend to believe that they represent a group of 67 people who enjoy a humanist global way of thinking that is not intolerant of religion sect gender race or class but rather advocate of empathy humanity justice fairness compassion self determination human rights and the

decent way of life for all We chose the title of the book *Voices for Justice* because justice transcends peace in that peace may be conditional on circumstances that may not achieve justice

**Cultural and Educational Exchanges between Rival Societies** Chuing Prudence Chou, Jonathan Spangler, 2018-09-26 This book stimulates discussions on cultural and educational exchanges between rival states and societies raises awareness of the potential positive and negative impacts of such exchanges and serves as a basis for future research and program design Cultural and educational exchanges in various forms have existed for millennia Yet it was not until the unprecedented human devastation of two world wars catalyzed a sense of urgency around the world that a new era of cultural and educational exchange programs emerged as a means of easing tensions between rival states and societies This book is motivated by the need for critical research that can contribute to building a more comprehensive understanding of the issues at stake It begins with a historical overview of cultural and educational exchanges between rival societies an assessment of their positive and negative impacts and a review of some of the most prominent theories in relevant fields It then presents a diverse set of case studies in which authors consider not only the real or expected benefits of such exchanges but also the potentially negative impacts challenges faced along the way and broader effects on the rival societies at large The states and societies considered include North Korea and the West Bosnia and Herzegovina Israel and the Palestinian territories India and Pakistan China and Taiwan Cuba and the US and China and the US Taken together the chapters demonstrate that exchanges have observable impacts on the individuals and institutions involved Moreover they reveal that exchanges have the capacity in some cases to affect broader social and political change at the family community society or state level but these impacts are indirect and typically require long term concerted efforts by those involved

**A Tale of Two Narratives** Grace

Wermenbol,2021-05-27 Explores the transmission and perpetuation of conflict narratives in Israeli Jewish and Palestinian society since the signing of the Oslo Accords

**Hebrew Literature and the 1948 War** Hannan Hever,2019-04-09 Hebrew Literature and the 1948 War Essays on Philology and Responsibility is the first book length study that examines the conspicuous absence of the Palestinian Nakba in modern Hebrew literature Through a rigorous reading of canonical Hebrew literary texts the author addresses the general failure of Hebrew literature to take responsibility for the Nakba The book illustrates how the language of modern Hebrew poetry and fiction reflects symptoms of Israeli national violence in which the literary language produces a picture of Palestine as an arena where the violent clash between the perpetrators and the victims takes place In doing so the author develops a new and critical paradigm for reflecting on the moral responsibility of literature and the ethics of reading The book includes close readings of the works of Avot Yeshurun S Yizhar Nathan Alterman Yehuda Amichai Yitzhak Laor and Amos Oz among others

**Israel-Palestine** Shlomo Sand,2024-08-20 Since the brutal massacre perpetrated by Hamas on 7 October and the subsequent bombing and invasion of Gaza the Israeli Palestinian conflict has been thrust back to the centre of the world s attention How can this deep rooted conflict stretching back for more than 75 years be brought to an end What kind of political structure might one day enable Israelis and Palestinians to overcome the seemingly interminable cycle of violence and live in peace with one another For many years politicians and citizens of different persuasions have called for a two state solution two independent states Israel and Palestine co existing side by side This was Shlomo Sand s view too a distinguished Israeli historian and political activist on the left he had long supported the idea of a two state solution But as more and more settlements were built in the occupied West Bank and millions of Palestinians were forced to live in a situation of de facto apartheid deprived of their basic civil rights and political freedoms he came to the conclusion that the two state solution had become an empty formula that no one seriously intended to implement It was in this context that Sand sought to find an alternative way out of the Israeli Palestinian imbroglio His journey into the dark corners of Zionism s ideological past threw up some surprises He discovered that some Zionists and other Jewish intellectuals had rejected the idea of an exclusive Jewish state and had supported moves to create a bi national federation They believed that only egalitarian integration within the framework of a common state would ensure that Israel could be a safe haven for all of its inhabitants While the chances of realizing this egalitarian vision may seem remote in the current hostile context it may well be that a bi national state in which Israelis and Palestinians are treated as equals is the only realistic solution in the end

Contemporary Catholic Approaches to the People, State, and Land of Israel Gavin D'Costa,Faydra Shapiro,H. B. Pierbattista Pizzaballa,2022-02-18 After Vatican II the Roman Catholic Church began a process of stripping away anti Jewish sentiments within its theological culture One question that has arisen and received very scant attention regards the theological significance of the founding of the state of Israel in 1948 and the attendant nakba the plight of the Palestinian people Some American evangelical Christians have developed a theology around

the state of Israel associating themselves with Zionism Some Christian groups have developed a theology around the suffering of the Palestinian people and demand resistance to Zionism This unique collection of essays from leading Catholic theologians from the United States Germany France Italy Switzerland England and the Middle East reflect on the theological status of the land of Israel These essays represent an exhaustive range of views None avoid the new Catholic theology regarding the Jewish people Some contributors see this as leading towards a positive theological affirmation of the state of Israel while distancing themselves from Christian Zionists All contributors are committed to rights of the Palestinian people Some affirm the need for strong diplomatic and political support for Israel along with equal support for Palestinians arguing that this is as far as the Church can go Others argue that the Church s emerging theology represents the guilt conscience of Europe at the cost of the Palestinian people None deny the right of Jews to live in the land Two Jewish scholars respond to the essays creating an atmosphere of genuine interfaith dialogue which serves Catholics to think further through these issues

The Federation of Palestinian and Hebrew Nations Abraham Weizfeld, 2018-11-07 This work focuses on the political philosophy and the constitutional transformation of the contradiction between two major nations in one land namely Palestine Israel While the notion of the Nation State has permeated the Levant since the 1917 British crusade into Jerusalem the organic demographic actuality of the country s population is incompatible with the dominance of one nation in one land with the subsequent degeneration into the series of war crimes that began in 1947 To move away from this conception of a Zionist State requires another methodology that offers an alternative to the domination of one nation by another that is rationalized by the myths of nation building promoted by the Nationalist school of thought With an approach that is international in the root meaning of the term this book fuses the Jewish Bundist concept of National Cultural Autonomy with the process of constituent assemblies as an expression of the parallel civil societies that become an organic social construction codified in a federal constitution By avoiding the notion of the Nation State this exit may then be named the No State Solution

Israel and South Africa Ilan Pappé, 2015-10-15 Within the already heavily polarised debate on the Israeli Palestinian conflict parallels between Israel and apartheid South Africa remain highly contentious A number of prominent academic and political commentators including former US president Jimmy Carter and UN Special Rapporteur John Dugard have argued that Israel s treatment of its Arab Israeli citizens and the people of the occupied territories amounts to a system of oppression no less brutal or inhumane than that of South Africa s white supremacists Similarly boycott and disinvestment campaigns comparable to those employed by anti apartheid activists have attracted growing support Yet while the apartheid question has become increasingly visible in this debate there has been little in the way of genuine scholarly analysis of the similarities or otherwise between the Zionist and apartheid regimes In Israel and South Africa Ilan Papp one of Israel s preeminent academics and a noted critic of the current government brings together lawyers journalists policy makers and historians of both countries to assess the implications of the apartheid analogy for international law activism and policy

making With contributors including the distinguished anti apartheid activist Ronnie Kasrils Israel and South Africa offers a bold and incisive perspective on one of the defining moral questions of our age Jewish Contiguities and the Soundtrack of Israeli History Assaf Shelleg, 2014 Jewish Contiguities and the Soundtrack of Israeli History revolutionizes the study of modern Israeli art music by tracking the surprising itineraries of Jewish art music in the move from Europe to Mandatory Palestine and Israel Leaving behind clichés about East and West Arab and Jew this book provocatively exposes the legacies of European antisemitism and religious Judaism in the making of Israeli art music *Understanding Zionism* Anne Perez, 2023-05-23 Understanding Zionism is a detailed introduction to the background and development of the Zionist movement its various streams and its impact on government and society in Israel The book serves as a primer for Christians of all backgrounds from those keenly interested in Zionism to those who are entirely unfamiliar with the term to understand basic concepts historical turning points and the political and social stakes of Zionism The first half of the book focuses on the history of Zionism how it formed and how it shaped the establishment of the State of Israel in 1948 It explores how different and competing political cultural economic and strategic streams emerged within the Zionist movement and became institutionalized in the New State of Israel Special attention is given to the important period between World War I and World War II when the map of the Middle East changed and Jews of Europe faced the rise of Nazism and genocide The second half of the book explores broader themes related to Zionism This includes the origins influences and theological emphases of Christian Zionism the various forms of opposition to Zionism and the contentious questions regarding differences and similarities between anti Zionism and antisemitism and current hopes and frameworks for the future of Zionism especially regarding a peace process between Israel and the Palestinians The book closes with a brief overview of Christianity in Israel Palestine and how Christians may relate to Zionism in the context of faith fellowship and national identity more broadly

Contesting the Monolith Priya Singh, 2025-10-24 The book challenges the notion that Israel is a homogeneous state whether in theory or in practice It offers a detailed and critical intersectional analysis of nationalism ethnicity gender and marginality in Israeli society revealing how these forces converge to produce multiple as well as fused identities within a complex social fabric Examining the ruptures and fault lines that shape a multi layered society the study contends that Israel's exceptionality lies not in its self proclaimed Jewish and democratic character but in its resort to exceptional legal and coercive measures to mask internal diversity By obscuring this heterogeneous reality the state cultivates an illusion of a monolithic and uniform Israeli identity The analysis presents a society far more fragmented and stratified than official narratives suggest offering readers an understanding of how intersecting structures of identity and power operate in the Israeli context and how social and political institutions respond to and regulate internal difference This book will be of interest to academic researchers postgraduate and doctoral students and policymakers engaged with questions of nationalism marginality identity and Middle Eastern politics particularly within the disciplines of political science sociology

Middle Eastern studies and gender studies      **Inhabiting the Land** Alain Epp Weaver, 2018-08-30 What does it mean to inhabit the land of Palestine and Israel justly How should Christians understand the Palestinian Israeli conflict Alain Epp Weaver examines answers to these questions paying particular attention to the theologies of sumud or steadfastness advanced by Palestinian Christian theologians while also presenting other Christian Jewish and Muslim responses Contextualizing these theologies within Palestinian and Israeli Jewish histories Epp Weaver introduces readers to the intertwined histories of Zionism as a movement to establish a Jewish state and renew Jewish life in the biblical land of Israel and Palestinian nationalism He also situates Palestinian Christian theologies within broader Christian conversations about election God's enduring covenant with the Jewish people and Zionism In the face of a politics of separation and dispossession Epp Weaver contends Palestinian Christian theologies testify to the possibility of a shared polity and geography for Palestinians and Israeli Jews not defined by walls militarized fences checkpoints and roadblocks but rather by mutuality and reconciliation      **Engaging the Doctrine of Israel** Matthew Levering, 2021-09-16 This book is the dogmatic sequel to Levering's *Engaging the Doctrine of Marriage* in which he argued that God's purpose in creating the cosmos is the eschatological marriage of God and his people God sets this marriage into motion through his covenantal election of a particular people the people of Israel Central to this people's relationship with the Creator God are their Scriptures exodus Torah Temple land and Davidic kingship As a Christian Israelology this book devotes a chapter to each of these topics investigating their theological significance both in light of ongoing Judaism and in light of Christian Scripture Old and New Testaments and Christian theology The book makes a significant contribution to charting a path forward for Jewish Christian dialogue from the perspective of post Vatican II Catholicism      **Working with A Secular Age** Florian Zemmin, Colin Jager, Guido Vanheeswijck, 2016-03-21 Charles Taylor's monumental book *A Secular Age* has been extensively discussed criticized and worked on This volume by contrast explores ways of working with Taylor's book especially its potentials and limits for individual research projects Due to its wide reception it has initiated a truly interdisciplinary object of study with essays drawn from various research fields this volume fosters substantial conversation across disciplines
