Beyond Winning Negotiating To Create Value In Deals And Disputes:

Beyond Winning Robert H. Mnookin, Scott R. Peppet, Andrew S. Tulumello, 2004-04-15 Conflict is inevitable in both deals and disputes Yet when clients call in the lawyers to haggle over who gets how much of the pie traditional hard bargaining tactics can lead to ruin Too often deals blow up cases don't settle relationships fall apart justice is delayed Beyond Winning charts a way out of our current crisis of confidence in the legal system It offers a fresh look at negotiation aimed at helping lawyers turn disputes into deals and deals into better deals through practical tough minded problem solving techniques In this step by step guide to conflict resolution the authors describe the many obstacles that can derail a legal negotiation both behind the bargaining table with one's own client and across the table with the other side They offer clear candid advice about ways lawyers can search for beneficial trades enlarge the scope of interests improve communication minimize transaction costs and leave both sides better off than before But lawyers cannot do the job alone People who hire lawyers must help change the game from conflict to collaboration The entrepreneur structuring a joint venture the plaintiff embroiled in a civil suit the CEO negotiating an employment contract the real estate developer concerned with environmental hazards the parent considering a custody battle clients who understand the pressures and incentives a lawyer faces can work more effectively within the legal system to promote their own best interests Attorneys exhausted by the trench warfare of cases that drag on for years will find here a positive proven approach to revitalizing their profession

Islands of Agreement Gabriella Blum,2007 We are culturally conditioned to think of war and peace in binary terms of strict opposition Correspondingly we tend to focus our attention on conflict prevention or conflict resolution But as Islands of Agreement demonstrates peace and war are seldom polar totalities but increasingly can and do coexist within the confines of a single scenario Consequently Gabriella Blum suggests that even where conflict exists we regard it as only one dimension of an ongoing multifaceted interstate relationship The result is a shift in perspective away from the constricting notions of prevention or resolution toward a more holistic approach of relationship management This approach is especially pertinent because conflicts cannot always be prevented or resolved Through case studies of long enduring rivalries India and Pakistan Greece and Turkey Israel and Lebanon Blum shows how international law and politics can function in the battlefield and in everyday life forming a hybrid international relationship Through a strategy she calls islands of agreement Blum argues that within the most entrenched and bitter struggles adversaries can carve out limited areas that remain safe or even prosperous amid a tide of war These havens effectively reduce suffering and loss and allow mutually beneficial exchanges to take place offering hope for broader accords
