Novels of William Boyd Dr. Rajesh Shashikant Latane, 2015-02-25 have great pleasure in writing this foreword to Dr Latane's book on the Novels of William Boyd The book is a significant contribution to Boyd criticism It has discussed the early the middle and the last phase of Boyd's novels In doing if the author has defined the totality of Boyd's vision Indeed every novel is a part of this totality and the totality is more than a mere sum of the novels The reciprocal relationship between the part and the whole is the crux of novel criticism and the book has given due justice to this aspect Another important feature of the book is the analysis of the postmodernist element in Boyd's novels This critical framework can be used to analysis the postmodernist element in the contemporary Indian novel in English Even going further it can be used to analyse the Postmodernist element in the contemporary Marathi novel A thesis is really acknowledged when it become a source material for the future researchers and comparatives Mr Latane's book has that potential I heartily wish a good reception to the book Dr Prakash Deshpande Kejkar Former Professor of English Shivaji University Kolhapur

The Dynamics of Narrative Form John Pier, 2011-03-01 By redefining established topics of narratology research has become highly diversified The contributions to this volume neither synthesize developments nor work from shared postulates but represent a fresh look at ongoing issues Some scrutinize focalisation in a linguistic framework or in a poststructuralist vein others take on reliable and unreliable narration in a pronominal perspective or the unaddressed reader who upsets the tidy schemes of narrative

communication Also outlined are a possible worlds approach to narrative time a systematic treatment of metanarrative and a transgeneric application of narratology to poetry The sequential ordering of narratives as a way of controlling reader response is examined in one article and in another is seen to elicit intertextual configurations Both divergent and complementary the contributions seek to integrate into narratological categories and methods the dynamic processes of narrative itself

The 1980s: A Decade of Contemporary British Fiction Philip Tew, Emily Horton, Leigh Wilson, 2014-02-27 How did social cultural and political events in Britain during the 1980s shape contemporary British fiction Setting the fiction squarely within the context of Conservative politics and questions about culture and national identity this volume reveals how the decade associated with Thatcherism frames the work of Kazuo Ishiguro Martin Amis and Graham Swift of Scottish novelists and new diasporic writers How and why 1980s fiction is a response to particular psychological social and economic pressures is explored in detail Drawing on the rise of individualism and the birth of neo liberalism contributors reflect on the tense relations between 1980s politics and realism and between elegy and satire Noting the creation of a heritage industry during the decade the rise of the historical novel is also considered against broader cultural changes Viewed from the perspective of more recent theorisations of crisis following both 9 11 and the 21st century financial crash this study makes sense of why and how writers of the 1980s constructed fictions in response to this decade s own set of fundamental crises

The Narrator Sylvie Patron, 2023-09 The narrator the answer to the question who speaks in the text is a commonly used notion in teaching literature and in literary criticism even though it is the object of an ongoing debate in narrative theory Do all fictional narratives have a narrator or only some of them Can narratives thus be narratorless This question divides communicational theories based on the communication between real or fictional narrator and narratee and noncommunicational or poetic theories which aim to rehabilitate the function of the author as the creator of the fictional narrative Clarifying the notion of the narrator requires a historical and epistemological approach focused on the opposition between communicational theories of narrative in general and noncommunicational or poetic theories of the fictional narrative in particular *The Narrator* offers an original and critical synthesis of the problem of the narrator in the work of narratologists and other theoreticians of narrative communication from the French Czech German and American traditions and in representations of the noncommunicational theories of fictional narrative Sylvie Patron provides linguistic and pragmatic tools for interrogating the concept of the narrator based on the idea that fictional narrative has the power to signal by specific linguistic marks that the reader must construct a narrator when these marks are missing the reader is able to perceive other forms and other narrative effects specially sought after by certain authors
