Science Fiction America David J. Hogan, 2015-05-07 From the inception of the science fiction film writers directors producers and actors have understood that the genre lends itself to a level of social commentary not available in other formats Viewers find it easier to accept explorations of such issues as domestic violence war xenophobia faith identity racism and other difficult topics when the protagonists exist in future times or other worlds that are only vaguely similar to our own The 22 original essays in this collection examine how the issues in particular science fiction films from 1930 s High Treason to 1999 s The Iron Giant reflect and comment on the prevailing issues of their time The 16 writers including such noted contributors as Ted Okuda Gary Don Rhodes Bryan Senn John Soister and Ken Weiss provide insight on how the genre s wistful daydreaming forthcoming wonders and nightmarish scenarios are often grounded in the grimmer realities of the human condition Films covered include It Came from Outer Space Godzilla The 27th Day Alien and Starship Troopers plus television s The Adventures of Superman the Flash Gordon serials and vintage space cartoons by Fleischer *Bestsellers (Routledge Revivals)* John Sutherland, 2010-10-04 First published in 1981 this book offers a study of British and American popular fiction in the 1970s a decade in which the quest for the superseller came to dominate the lives of publishers on both sides of the Atlantic Illustrated by examples of the lurid incidents that catapult so many books into the bestseller charts this comprehensive study covers the work of Robbins Hailey and Maclean the bodice rippers the disaster craze horror war stories and media tie ins such as The Godfather Jaws and Star Wars *Talking Book Topics*, 1981 **Furry Fandom**, *Dark Actors* Robert Lewis, 2013-07-04 One July afternoon in 2003 in a quiet part of Oxfordshire a scientist went out for a walk and never came back Dr David Kelly had been all over the news in the preceding days as an investigator on the team which went into Iraq to check whether they had weapons of mass destruction he had been accused of anonymously briefing a BBC reporter that the government s case for the Iraq War had been deliberately falsified When the news came through that his body had been found in woods near his country home for the briefest of moments a stunned Britain held its breath and wondered if this was what it had come to Our intelligence services were already collaborating in the torture of British citizens for reasons of national security Had they committed murder too Tony Blair himself was for once without answer At a press conference in Japan a reporter stood up and asked him if he had blood on his hands The Prime Minister stood there blinking behind his mask until he walked shocked from the podium But Britain kept calm and carried on Normal service was resumed and the world began spinning again David Kelly we were told had committed suicide for personal reasons that had nothing to do with Downing Street or the Iraq War But not all could believe that For those that couldn t they too lost a part of themselves that afternoon Conspiracy theorists eccentrics obsessives lunatics paranoids fantasists zealots they had been awarded all these sobriquets and more Yet it was easy enough to see lurking behind the cracks and gaps in the government s account the hulk of a great and deliberate dishonesty Simply to read about what transpired in Longworth Oxfordshire on the

17th July 2003 made it impossible to believe otherwise
