The Oxford Handbook of Science Fiction

Rob Latham, 2014 The Oxford Handbook of Science Fiction attempts to describe the historical and cultural contours of SF in the wake of technoculture studies Rather than treating the genre as an isolated aesthetic formation it examines SF's many lines of cross pollination with technocultural realities since its inception in the nineteenth century showing how SF's unique history and subcultural identity has been constructed in ongoing dialogue with popular discourses of science and technology The volume consists of four broadly themed sections each divided into eleven chapters Section I Science Fiction as Genre considers the internal history of SF literature examining its characteristic aesthetic and ideological modalities its animating social and commercial institutions and its relationship to other fantastic genres Section II Science Fiction as Medium presents a more diverse and ramified understanding of what constitutes the field as a mode of artistic and pop cultural expression canvassing extra literary manifestations of SF ranging from film and television to videogames and hypertext to music and theme parks Section III Science Fiction as Culture examines the genre in relation to cultural issues and contexts that have influenced it and been influenced by it in turn the goal being to see how SF has helped to constitute and define important sub cultural groupings social movements and historical developments during the nineteenth twentieth and twenty first centuries Finally Section IV Science Fiction as Worldview explores SF as a mode of thought and its intersection with other philosophies and large scale perspectives on the world from the Enlightenment to the present day

Slices & Lumps

Lee Anne Fennell, 2019-09-16 How things are divided up or pieced together matters Half a bridge is of no use at all Conversely many things would do more good if they could be divided up differently Perhaps you would prefer a job that involves a third less work and a third less pay or a car that materializes only when needed and is priced accordingly Difficulties in slicing and lumping shape nearly every facet of how we live and work and a great deal of law and policy as well Lee Anne Fennell explores how both types of challenges carving out useful slices and assembling useful lumps surface in myriad contexts from hot button issues like conservation and eminent domain to developments in the sharing economy to personal struggles over work money time diet and exercise Yet the significance of configuration is often overlooked leading to missed opportunities for improving our lives With a technology fueled entrepreneurial explosion underway that is dividing goods services and jobs in novel ways and as urbanization and environmental threats raise the stakes for assembling resources and cooperation this is an especially exciting and crucial time to confront questions of slicing and lumping The future of the city the workplace the marketplace and the environment all turn on matters of configuration as do the prospects for more effective legal doctrines for better management of finances and health and more This book reveals configuration's power and potential as a unifying concept and as a focus of public and private innovation

The Magazine of Fantasy & Science Fiction, 2009-04

The Unincorporated War Dani Kollin, Eytan Kollin, 2010-05-06 The breathtaking sequel to the Prometheus Award winner Exiled from Earth a revolutionary hero prepares for interplanetary civil war Booklist The Kollin brothers introduced their future world and their character Justin Cord in their award winning novel The Unincorporated Man

Justin created a revolution in that book and is now exiled from Earth to the outer planets where he is a heroic figure. The corporate society that is headquartered on Earth and rules Venus, Mars, and the Orbital colonies wants to destroy Justin and reclaim hegemony over the rebellious outer planets. The first interplanetary civil war begins as the military fleet of Earth attacks. Filled with battles, betrayals, and triumphs, *The Unincorporated War* is a full-scale space opera that catapults the focus of the earlier novel up and out into the solar system. Justin remains a fighter, both logical and passionate for the principles that motivate him. He also remains the most dangerous man alive. Masterful command of multiple plot threads, characters, and the motifs of grand-scale space opera. Booklist: Appealing characters, ruthless villains, and speed of light pacing make this a good choice for fans of battle-oriented SF and heroic space adventure in the tradition of Robert Heinlein and David Weber. Library Journal. **The Publishers Weekly**, 2009. Talking Book Topics, 2012. Library Journal, 2009. Day by Day. Kollin Bros., *Day By Day* is a Mayan prophecy tale that takes place on the last day of Earth's existence. The Prometheus award-winning authors have not only come up with a doomsday like no other; they've also managed to place the fate of humanity on the hopes and perseverance of a most unlikely duo, quite possibly the strangest in science-fiction history. Enjoy *Day By Day*, a Kollin Brothers adventure that begins at the end. **The Writers Directory**, 2013. **Five by Five: Target Zone**. Kevin J. Anderson, 2014-11-02. An anthology of five military sci-fi novellas captures the action and adventure of futuristic wars on and off the battlefield. **TARGETS ARE LOCKED**. Michael A. Stackpole. The Star Tigers are commandeered by a powerful alien overseer on a covert mission to a world long abandoned by an ancient species. There, the ruins of a forgotten war will tip the balance of their war unless the Star Tigers can prevent it. Sarah A. Hoyt. Lucius Dante Maximilian Keeva is a well-respected leader of the Usaian Revolution, but treason in the ranks can cost him everything that makes life worth living unless he takes justice into his own hands and breaks every military regulation in its pursuit. Doug Dandridge. Faced with an enemy more than two hundred times her own size, Cinda Klerk has two options: hide and let it destroy the planet she is supposed to protect, or find a way to even the odds and kill the enemy even at the cost of her ship and crew. Eytan Kollin and Dani Kollin. As the *Unincorporated War* envelops the entire solar system, a father must come to the rescue of a daughter he never raised. But he'll have to convince her to save herself first. Kevin J. Anderson. In the war against an alien menace, Earth's greatest military commanders risk themselves on the front lines, but with an escape hatch. If the situation goes terribly wrong, they can switch places with a safe soldier far from the battlefield. But the cannon fodder volunteers don't consider that such a good deal.
