Luders,2008-07-11 *Textbook of Epilepsy Surgery* covers all of the latest advances in the surgical management of epilepsy The book provides a better understanding of epileptogenic mechanisms in etiologically different types of epilepsy and explains neuronavigation systems It discusses new neuroimaging techniques new surgical strategies and more aggressive surgical approaches in cases with catastrophic epilepsies The contributors also analyze the improved

statistics of surgical outcome in different epilepsy types This definitive textbook is an invaluable reference for neurologists neurosurgeons epilepsy specialists and those interested in epilepsy and its surgical treatment **The Believer's Brain** Kenneth M. Heilman, Russell S. Donda, 2014-01-21 About 90% of people have faith in a supreme being but our yearning for the divine and whatever it promises involves a large divergence in mental states and behaviors Some adhere to doctrine supplication and fastidious religious practices others have a strong sense they are part of something greater and more universal However all religious and spiritual paths are mediated by complex brain networks When different areas of the brain are stimulated a person can have a variety of experiences but there is no specific God spot where stimulation enhances religiosity or spirituality Functional brain imaging shows that there are specific areas of the brain that light up when subjects perform certain religious activities but imaging only provides anatomic correlations not functional explanations The Believer's Brain takes a step beyond these singular methodologies providing converging evidence from a variety of study methods of how humans brain networks mediate different aspects of religious and spiritual beliefs feelings actions and experiences Although the book reveals how our brain is the home to the religious and spiritual mind understanding this gift will not diminish our spirituality or our love or our belief in a supreme being but will increase appreciation of the apparatus that mediates these mental states ***The Totally Implantable Artificial Heart*** National Heart and Lung Institute. Artificial Heart Assessment Panel, 1973 **Neuroscience in Science Fiction Films** Sharon Packer, M.D., 2014-11-20 As the gap between science fiction and science fact has narrowed films that were intended as pure fantasy at the time of their premier have taken on deeper meaning This volume explores neuroscience in science fiction films focusing on neuroscience and psychiatry as running themes in SF and finding correlations between turning points in neuroscience fiction and advances in the scientific field The films covered include The Strange Case of Dr Jekyll and Mr Hyde The Island of Dr Moreau Robocop The Stepford Wives The Mind Snatchers and iconic franchises like Terminator Ironman and Planet of the Apes Examining the parallel histories of psychiatry neuroscience and cinema this book shows how science fiction films offer insightful commentary on the scientific and philosophical developments of their times **New York Magazine** , 1974-06-24 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Replications** J. P. Telotte, 1995 A haunting fascination fuels our interest in the robot the android the cyborg the replicant Born in science fiction literature the artificial human has come into its own in films lurching to life holding a mirror to humanity's soul Beginning with a pre history of the filmic robot J P Telotte traces its development through early sci fi landmarks such as Metropolis 1926 the alien films of the 1950s including Forbidden Planet and recent explorations of the artificial human in Blade Runner Robocop and the

Terminator films Replications also considers the tension between the technological wonders that science fiction depicts and the human values it champions Film makers employ the latest developments in technology to fashion ever more realistic human doubles and then use them to explore what it means to be human Telotte shows us how the sci fi genre has always addressed changing cultural attitudes toward technology the body gender roles human intelligence reality and even film itself
