The Warsaw Ghetto in American Art and Culture Samantha Baskind, 2018-02-15 On the eve of Passover April 19 1943 Jews in the Warsaw Ghetto staged a now legendary revolt against their Nazi oppressors Since that day the deprivation and despair of life in the ghetto and the dramatic uprising of its inhabitants have captured the American cultural imagination The Warsaw Ghetto in American Art and Culture looks at how this place and its story have been remembered in fine art film television radio theater fiction poetry and comics Samantha Baskind explores seventy years worth of artistic representations of the ghetto and revolt to understand why they became and remain touchstones in the American mind Her study includes iconic works such as Leon Uris's best selling novel *Mila 18* Roman Polanski's Academy Award winning film *The Pianist* and Rod Serling's teleplay *In the Presence of Mine Enemies* as well as accounts in the American Jewish Yearbook and the New York Times the art of Samuel Bak and Arthur Szyk and the poetry of Yala Korwin and Charles Reznikoff In probing these works Baskind pursues key questions of Jewish identity What links artistic representations of the ghetto to the Jewish diaspora How is art politicized or depoliticized Why have Americans made such a strong cultural claim on the uprising Vibrantly illustrated and vividly told *The Warsaw Ghetto in American Art and Culture* shows the importance of the ghetto as a site of memory and creative struggle and reveals how this seminal event and locale served as a staging ground for the forging of Jewish American identity

The Palgrave Handbook of Holocaust Literature and Culture Victoria Aarons, Phyllis Lassner, 2020-01-24 The Palgrave Handbook of Holocaust Literature and Culture reflects current approaches to Holocaust literature that open up future thinking on Holocaust representation. The chapters consider diverse generational perspectives: survivor writing, second and third generation, and genres: memoirs, poetry, novels, graphic narratives, films, video testimonies, and other forms of literary and cultural expression. In turn, these perspectives create interactions among generations, genres, temporalities, and cultural contexts. The volume also participates in the ongoing project of responding to and talking through moments of rupture and incompleteness that represent an opportunity to contribute to the making of meaning through the continuation of narratives of the past. As such, the chapters in this volume pose options for reading Holocaust texts, offering openings for further discussion and exploration. The inquiring body of interpretive scholarship responding to the Shoah becomes itself a story, a narrative that materially extends our inquiry into that history.

The Wonder of Their Voices Alan Rosen, 2010-10-18 Over the last several decades, video testimony with aging Holocaust survivors has brought these witnesses into the limelight. Yet the success of these projects has made it seem that little survivor testimony took place in earlier years. In truth, thousands of survivors began to recount their experience at the earliest opportunity. This book provides the first full-length case study of early postwar Holocaust testimony, focusing on David Boder's 1946 displaced persons interview project. In July 1946, Boder, a psychologist, traveled to Europe to interview victims of the Holocaust who were in the Displaced Persons (DP) camps and what he called shelter houses. During his nine weeks in Europe, Boder carried out approximately 130 interviews in nine languages and recorded them on a wire recorder. Likely the earliest audio-recorded testimony of Holocaust survivors, the interviews are valuable today for the spoken word, that of the DP narrators and of Boder himself, and also for the song sessions and religious services that Boder recorded. Eighty sessions were eventually transcribed into English, most of which were included in a self-published manuscript. Alan Rosen sets Boder's project in the context of the postwar response to displaced persons, sketches the dramatic background of his previous life and work, chronicles in detail the evolving process of interviewing both Jewish and non-Jewish DPs, and examines from several angles the implications for the history of Holocaust testimony. Such early postwar testimony, Rosen avers, deserves to be taken on its own terms rather than to be enfolded into earlier or later schemas of testimony. Moreover, Boder's efforts and the support he was given for them demonstrate that American postwar response to the Holocaust was not universally indifferent but rather often engaged, concerned, and resourceful.

Intellectuals Incorporated Robert Vanderlan, 2011-06-06 Publishing tycoon Henry Luce famously championed many conservative causes, and his views as a capitalist and cold warrior were reflected in his glossy publications. Republican Luce aimed squarely for the Middle American masses, yet his magazines attracted intellectually and politically ambitious minds who were moved by the democratic aspirations of the New Deal and the left. Much of the best work of

intellectuals such as James Agee Archibald MacLeish Daniel Bell John Hersey and Walker Evans owes a great debt to their experiences writing for Luce and his publications *Intellectuals Incorporated* tells the story of the serious writers and artists who worked for Henry Luce and his magazines *Time* *Fortune* and *Life* between 1923 and 1960 the period when the relationship between intellectuals the culture industry and corporate capitalism assumed its modern form Countering the notions that working for corporations means selling out and that the true life of the mind must be free from institutional ties historian Robert Vanderlan explains how being embedded in the corporate culture industries was vital to the creative efforts of mid century thinkers Illuminating their struggles through careful research and biographical vignettes Vanderlan shows how their contributions to literary journalism and the wider political culture would have been impossible outside Luce's media empire By paying attention to how these writers and photographers balanced intellectual aspiration with journalistic perspiration *Intellectuals Incorporated* advances the idea of the intellectual as a connected public figure who can engage and criticize organizations from within

The Rotarian, 1950-08 Established in 1911 *The Rotarian* is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Gandhi to Kurt Vonnegut Jr have written for the magazine

Sounds of Defiance Alan Charles Rosen, 2005-01-01 Language has frequently been at the center of discussions about Holocaust writing Yet English a primary language of neither the persecutors nor the victims has generally been viewed as marginal to the events of the Holocaust Alan Rosen argues that this marginal status profoundly affects writing on the Holocaust in English and fundamentally shapes our understanding of the events *Sounds of Defiance* chronicles the evolving status of English in writing about the Holocaust from the period of the Second World War to the 1990s Each chapter highlights a representative work from a different genre psychology sociology memoir tales fiction and film and examines the special position of English with regard to the Holocaust supported by references to the role of other languages including Hebrew Yiddish and German This original approach provides a new perspective on such standard works as *Eichmann in Jerusalem* *The Shawl* and *Maus* while drawing attention to others largely unknown Rosen also links this analysis of English writing to developments in the postwar period the escalating production of writing on the Holocaust in English the increasing prestige of English as a global language and paradoxically within the contexts of neocolonial and multilingual studies the increasingly uncertain position of English

Wall, Watchtower, and Pencil Stub John R. Carpenter, 2017-11-07 It has been said that during times of war the Muses fall silent However anyone who has read the major figures of mid twentieth century literature Samuel Beckett Richard Hillary Norman Mailer Albert Camus Jean Paul Sartre and others can attest that it was through writing that people first tried to communicate and process the horrors that they saw during one of the darkest times in human history even as it broke out and raged on around them In *Bearing Witness* John Carpenter explores how across the world those who experienced the war tried to make sense of it both during and in its

immediate aftermath Writers such as Alexander Solzhenitsyn and Theodore Plievier questioned the ruling parties of the time based on what they saw Correspondents and writer soldiers like John Hersey and James Jones revealed the chaotic and bloody reality of the front lines to the public And civilians many of who remain anonymous lent voice to occupation and imprisonment so that those who didn't survive would not be forgotten The digestion of a cataclysmic event can take generations But in this fascinating book Carpenter brings together all those who did their best to communicate what they saw in the moment so that it could never be lost One a Day Abraham P.
