Villa Incognito Tom Robbins,2003 Imagine there are American MIAs who chose to remain missing after the Vietnam War Imagine a family in which four generations of strong alluring women share a mysterious connection to an outlandish figure from Japanese folklore Imagine them part of a novel that only Tom Robbins could create a magically crafted work as timeless as myth yet as topical as the latest international threat But no matter how hard you try you ll never imagine what you ll find inside the Villa Incognito a tilt a whirl of identity masquerade and disguise that dares to pull off the false mustache of the world and reveal the even greater mystery underneath For neither the mists of Laos nor the Bangkok smog neither the overcast of Seattle nor the fog of San Francisco neither the murk of the intelligence community nor the mummery of the circus can obscure the pure linguistic phosphor that illuminates every page of one of America s most consistently surprising and inventive writers *Villa Incognito* Tom Robbins,2006 **The Tao of the Dude** Oliver Benjamin,2016-04-15

Why Secret Intelligence Fails Michael A. Turner, 2005

Michael Turner argues that the root causes of failures in American intelligence can be found in the way it is organized and in the intelligence process itself. Intelligence that has gone awry affects national decision making and ultimately American national security. Intelligence officials are reluctant to talk about intelligence successes claiming the secret of our success is the secret of our success. But these officials also shy away from talking about failures largely because doing so would expose the failings of American intelligence and have an impact on policy consumers who may become more reluctant to accept and act on the intelligence they receive. Rather than focusing on case studies the book takes a holistic approach beginning with structural issues and all dysfunctions that emanate from them. Turner explores each step of the intelligence cycle: priority setting, intelligence collection, analysis, production and dissemination to identify the inflection points within each stage that contribute to intelligence failures. Finally he examines a variety of plans that if implemented would reduce the likelihood of intelligence failures. While examining the causes of intelligence failures, Turner also explores intelligence as a critical governmental activity, making the book an excellent primer on secret intelligence. Turner writes in jargon free prose for the informed reader interested in foreign policy and national security policy matters and brings enough depth to his subject that even experts will find this a must read.

Over the Top Adrian Flanagan, 2018-03-08. Only one person has ever sailed vertically around the world. Adrian Flanagan. Sailing horizontally is difficult enough, crossing thousands of miles of ocean only to get near land at the Capes and battle treacherous currents. However, hundreds of sailors have still managed it. Adrian became obsessed with the idea of sailing vertically around the world as a boy before he even knew whether it was possible. Thirty years later he managed it. This is his own account of his remarkable adventure. It was an epic challenge sailing through the perilous waters around Cape Horn and across the remote hostile stretch of the Russian Arctic. He survived being washed overboard, capsizing, a close encounter with pirates and also managed to treat not one but two dislocated wrists all of this alone a thousand miles or more from anyone who could help him complete his quest. It wasn't all high drama, however. Adrian experienced moments of awe, inspiring beauty, being accompanied by a pod of whales and swimming with dolphins. This is a timeless and unique story, pacily written with a sense of humour but which captures the zeal and determination required to accomplish something nobody else has ever done before.

Hurry on Sundown Nick Pyatt, 2013-08-01. This is the tale of many attempted entries into Burma to meet the people living life in political oppression. Unfortunately the two visas that were granted came with limited timeframes. The first one barely allowed a whistle stop tour of basic city centers where we saw what they allowed us to see. Next up a visit to the Three Parallel Rivers region of Yunnan Province, China bordering North East Burma. Scaled Jade Dragon Snow Mountain at 5,500 meters and descended Tiger Leaping Gorge, the deepest of its kind in the world but Burma access denied. Made a deal to hitch hike and navigate the mighty Mekong River from The Golden Triangle to the Vietnam Delta with an acquired taste diet of garlic and diesel plus a quick insight in

following the footsteps of a want to be Siddhartha disciple An extended second visa into the new Myanmar gave time necessary to discover and meet the underground organizations of Academic and Business Management schools and assist them with their foreign networking and correspondence As usual there is never a dull moment A lot can happen when you decide to become an ex pat teach in a Thai school and buy a bar And even stranger things can happen when you travel in countries where you have to play charades to order some dinner This book is filled with funny stories quirky people and incredibly stupendous situations This is the third book of the Road Diaries chronicles and it s time to reassess where the hell I am at and to consider decorating it with the stuff I have accumulated over the years
