Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States F. H. Hinsley, Francis Harry Hinsley, 1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the

formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War

The Age of Dimes and Pulps Jeremy Agnew, 2018-07-25

From the dime novels of the Civil War era to the pulp magazines of the early 20th century to modern paperbacks, lurid fiction has provided thrilling escapism for the masses. Cranking out formulaic stories of melodrama, crime and mild erotica, often by uncredited authors focused more on volume than quality, publishers realized high profits playing to low tastes. Estimates put pulp magazine circulation in the 1930s at 30 million monthly. This vast body of disposable literature has received little critical attention in large part because much of it has been lost: the cheaply made books were either discarded after reading or soon disintegrated. Covering the history of pulp literature from 1850 through 1960, the author describes how sensational tales filled a public need and flowered during the evolving social conditions of the Industrial Revolution.
