The Four Great Errors Overall Nietzsche attacks our system of evaluating life the confusion of cause and effect self deception accountability and free will and the concepts of vice and morality The alternative title of this work is appropriately How One Philosophizes with a Hammer This work written in just over a week prepares readers for the ideas found in The Anti Christ Also written in 1888 it expands on Nietzsche s blatant disagreements with institutional Christianity Though written to deliberately rouse anyone who reads them these works are perhaps most shocking not in their frank negativity concerning nearly all aspects of humanity but in the profound depth of their understanding of human nature and the actual optimism subtly affirming man s capabilities and possibilities
