Essential Subject Knowledge for Primary Teaching Nasreen Majid, 2023-03-25 As a trainee teacher you have a huge amount to grapple with when it comes to developing expertise in the suite of subjects within the primary national curriculum Subject knowledge cannot be developed in isolation it must relate to the curriculum knowledge and pedagogical knowledge enabling ways to teach the subject with confidence This book takes you through a journey of the national curriculum supporting you to think about each subject's positioning within the national curriculum the subject knowledge you need to know and how to teach each subject in a creative way Highlighting the importance of diversity equity and inclusion across all chapters this book enables new teachers to bring new voices and perspectives to the classroom It includes Key subject knowledge Examples of sequenced lessons Classroom ideas Links to further learning and subject associations A chapter exploring the subject knowledge needed to teach sustainability and climate change

Year One in Action Anna Ephgrave, 2017-03-16 Children are hard wired to learn and they learn best by being active and autonomous exploring discovering creating and taking risks in other words by playing However formal subject specific lessons and a focus on data targets and unrealistic expectations are causing young children to be bored and stressed and this is stifling their learning *Year One in Action* reveals the remarkable progress children can make when they are allowed to pursue their own interests ideas and challenges in a superb and enabling environment supported by responsive skilled and empathic staff Demonstrating how a child led approach supports the development of purposeful calm confident and independent children this book offers a unique month by month insight into the workings of a highly successful

Year One class It covers all aspects of practice from timetabling adult roles and transitions to the organisation of the classroom and outside area It tracks the events of each month in the year paying close attention to the physical environment and the learning that is taking place Interactions between staff and children are recognised as and exploited as teaching opportunities Throughout the book Anna Ephgrave gives the reasons behind each decision made She also explains what the outcomes have been for the children emphasising that a child led approach with planning in the moment enables rich learning across the curriculum for all children within a meaningful context Key features include over 150 full colour photographs to illustrate practice photocopiable pages of planning sheets record keeping sheets and sample letters to parents examples of individual learning journeys and planning in the moment guidance on what to look for when assessing children s progress advice on risk benefit assessments suggestions for managing transitions and minimising stress The achievements of these children have been remarkable and they have remained the enthusiastic independent happy and unique individuals that they were when they came into Year One Written by a leading consultant teacher this book will inspire teachers to be brave and do what is right for children let them take the lead trust that they want to learn and above all let them play

How to Be a Brilliant Teaching Assistant Susan Bentham, 2018-09-03 How to Be a Brilliant Teaching Assistant draws on knowledge from very experienced teaching assistants and Susan Bentham s own extensive research to explore the common denominators that unite all brilliant teaching assistants The book explores becoming a brilliant teaching assistant as a journey and not an end point and provides support that will help you along the way whether you re just starting out in your career or you ve been an experienced teaching assistant for years This accessible book covers all aspects of the teaching assistant role such as Key roles and responsibilities Meta cognition and understanding children s learning Delivering high quality lessons alongside teachers Developing useful subject knowledge Undertaking research and professional development Illustrated with activities discussion points and anecdotes this book is a source of support guidance and inspiration for every teaching assistant engaged in the ongoing process of becoming an outstanding professional

Training to Teach in Primary Schools Jane Medwell, 2015-03-19 Full of practical help and guidance this is a must have for primary trainees on school experience whether they are in a school based or university based teacher training programme It begins by helping trainees to plan their own journey through training and beyond Taking control of their own training in this way supports student teachers to approach the course with confidence and secure their first teaching job The book provides guidance on adapting to working in school observing planning and evaluating in school teaching on placement assessing monitoring and reporting on children s progress self evaluation and how to pre empt and resolve issues securing the first teaching job and succeeding in the NQT year For student teachers the experience of school based training is exciting but also challenging this book supports them throughout and prepares them for the journey ahead Student feedback on this book Having been on a variety of teaching placements myself I know just how daunting and overwhelming experiences in school

can be at times even with a supportive mentor by your side Hence I felt that this book can smooth out and rectify those worries one may face during a school placement and offers the reader a realistic insight into school experiences In my opinion the most useful chapter by far is the Moving On chapter near the end of the book This explains how to conclude a school placement what to expect from an interview and even how to set out a CV for a teaching position This was not something I expected to find in this book however it was very much welcomed and is in fact a very important valuable part of the book This is the type of book you can buy on your very first day of teacher training and use well into your days as a newly qualified teacher Jasmin Primary Teacher Trainee University of Northampton

The Place of Ethics in Science Education Amanda McCrory, Michael J. Reiss, 2023-08-24 Science education particularly school science education has long had an uneasy relationship with ethics being unsure whether to embrace ethics or leave it to others In this book the authors argue that while the methods of science and of ethics are very different ethics plays a key role in how science is undertaken and used And so ethics has a central place in science education whether we are talking of school science education for students of all ages or the informal science education that takes place in through internet books magazines TV and radio or in places such as hospitals and zoos Written for science educators based in schools and elsewhere the authors make no assumptions that the reader has any knowledge of ethics beyond the background understandings of morality that virtually all of us have Empowered with the knowledge shared in this book readers will feel confident about the place that ethics has in science education The authors provide a rich array of examples as to how science education both in school and out of school and for all ages can be enhanced through including teaching about ethics

A Practical Guide: The National Standards of Excellence for Headteachers Roy Blatchford, 2015-03-04 This Practical Guide seeks to illuminate the National Standards of Excellence for Headteachers presenting a range of perspectives to bring the text alive for current and future school leaders and for those with the vital responsibilities of proper governance Part Two of the book comprises the official Standards published by the DfE by way of handy reference

Early Childhood Studies Damien Fitzgerald, Heloise Maconochie, 2018-11-24 Focused on seeing children in the context of the world they live in it provides students with a range of perspectives insights and latest thinking By doing this it helps readers understand the complexities of early childhood and critically navigate the ever changing policy and practice

Exploring Science with Young Children Terry Russell, Linda McGuigan, 2016-03-16 The Association for Science Education Book Award 2016 Finalist Science in the early years is about more than developing understanding of key scientific concepts it is about encouraging imagination creativity and curiosity and nurturing key scientific skills to form a firm base for learning Understanding how best to do this for young children aged 3-7 is the focus of the book By concentrating on practical and naturally occurring experiences the authors look at meeting the needs of the curriculum with children at the centre of their own learning Chapters look at how to work with children to Find out and develop their own ideas Get them inquiring scientifically Use evidence to support their views This book will really

help develop the whole child across the curriculum and make sure they have the skills they need for later learning

Mathematics Tests Teacher's Guide Key Stage 1 Qualifications and Curriculum Authority, 1999 **Mathematics Test Teacher's Guide** Qualifications and Curriculum Authority (Great Britain), 1999 **Understanding Dyscalculia and Numeracy Difficulties** Jane Emerson, Patricia Babbie, 2015-07-21 A complete accessible guide to understanding dyscalculia and low numeracy this book covers number sense and how the brain deals with numbers assessment planning intervention what to teach how to teach it and how parents can help Essential for parents teachers and education professionals working with a child with numerical difficulties
