Experiments in Democracy Cheryl Black, Jonathan Shandell, 2016-06 In *Experiments in Democracy* theatre historians explore the ways progressive artists sought to connect isolated racial and cultural groups in pursuit of a more just and democratic society Some of My Friends Are Deborah Plummer, 2019-01-22 Examines why it s difficult to form friendships with people of different races how we can make those connections and how they will encourage more meaningful conversations about race Surveys have shown that the majority of people believe cross racial friendships are essential for improving race relations However further polling reveals that most Americans tend to gravitate toward friendships within their own race Psychologist Deborah L Plummer examines how factors such as leisure politics humor faith social media and education influence the nature and intensity of cross racial friendships Inspiring and engaging Plummer draws from focus groups statistics and surveys to provide insight into the fears and discomforts associated with cross racial friendships Through personal narratives and social analyses of friendship patterns this book gives an insightful look at how cross racial friendships work and fail within American society Plummer encourages all of us to examine our friendship patterns and to deepen and strengthen our current cross racial friendships *Black Men from behind the Veil* George Yancy, 2022-01-14 The Black male scholars within this important book are painfully aware that the brutal murder of George Floyd was not due to a few bad apples They understand that they are perceived as threats and criminals within a distorted white imaginary that is embedded with processes of mythopoetic construction racial capitalism and a deep anti Black male social ontology Edited

by prominent philosopher George Yancy *Black Men from behind the Veil: Ontological Interrogations* emphasizes the importance of Black male epistemic agency and the courage to speak the truth regarding an America that values Black male life on the cheap and that attempts to control the movement of Black men, their capacity to breathe, and their being through anti-Black technologies of surveillance, confinement, policing, and white nation building. There is no single monolithic Black male voice that dominates this crucial and necessary text. Each voice speaks of pain behind the Veil, revealing narrative specificity and an important recursive truth: Black men within the white American psyche are both necessary and yet disposable. The existential and sociohistorical weight of this truth is made painfully clear through the voices of these Black men.
