The Master Plant Andrew Russell, Elizabeth Rahman, 2020-06-03 Described as a master plant by many indigenous groups in lowland South America tobacco is an essential part of shamanic ritual as well as a source of everyday health wellbeing and community In sharp contrast to the condemnation of the tobacco industry and its place in contemporary public health discourse the book considers tobacco in a more nuanced light as an agent both of enlightenment and destruction Exploring the role of tobacco in the lives of indigenous peoples The Master Plant offers an important and unique contribution to this field of study through its focus on lowland South America the historical source region of this controversial plant yet rarely discussed in recent scholarship The ten chapters in this collection bring together ethnographic accounts key developments in anthropological theory and emergent public health responses to indigenous tobacco use Moving from a historical study of tobacco usage covering the initial domestication of wild varieties and its value as a commodity in colonial times to an examination of the transcendent properties of tobacco and the magic symbolism and healing properties associated with it the authors present wide ranging perspectives on the history and cultural significance of this important plant The final part of the book examines the changing landscape of tobacco use in these communities today set against the backdrop of the increasing power of the national and transnational tobacco industry The first critical overview of tobacco and its uses across lowland South America this book encourages new ways of thinking about the problems of commercially exploited tobacco both within and beyond this source region

Foodwise Wendy E. Cook, 2012-12-17 Wendy Cook's fascination with nutrition began during her war time childhood In the midst of deprivation and food rationing the rich abundance of her mother's organic garden made a profound impression In her twenties married to Peter Cook she discovered the artistic and magical effects that food could have in creating a convivial atmosphere During this period she cooked for

many well known names including John Lennon Paul McCartney Dudley Moore Peter Ustinov and Alan Bennett But it was only later through her daughter falling ill that she came to study and understand deeper aspects of nutrition and in particular the effects of different foods on human health and consciousness In Foodwise Wendy Cook presents a remarkable cornucopia of challenging ideas advice and commentary informed by the seminal work of the scientist Rudolf Steiner She begins the volume with biographical glimpses relating to her experience of food and how it has influenced her life She then presents an extraordinary perspective on the journey of human evolution relating it to changes in consciousness and the consumption of different foods In the following section she considers the importance of agricultural methods the nature of the human being the significance of grasses and grains the mystery of human digestion and the question of vegetarianism In the next section she analyses the building blocks of nutrition looking in some detail at the nutritional or otherwise qualities of many foodstuffs including carbohydrates minerals fats and oils milk and dairy products herbs and spices salt and sweeteners stimulants legumes the nightshade family bread water and dietary supplements She ends with practical tips on cooking planning menus children s food sharing meals and some mouth watering recipes Foodwise presents a treasure of wisdom and experience for anybody with a concern for the content of the food they eat or a desire to discover more about the physical soul and spiritual aspects of nutrition
