## Land Use Law Issues For The Eighties Part 2:

**Creating Successful Communities** Luther Propst, Stephen F. Harper, Michael The Conservation Foundation, Michael Mantell, 2012-07-11 Creating Successful Communities is a practical compendium of techniques for effective land use and growth management. It offers a framework for land use decisionmaking and growth management techniques for protecting key resources such as agricultural land, open space, historic and cultural structure, aesthetics, and rivers and wetlands, as well as ways to organize effectively. The companion Resource Guide provides detailed information on topics covered in *Creating Successful Communities*. **Law Books in Print: Title index** Glanville Publishers, Incorporated, 1997 Solar Energy Update, 1980 Bowker's Law Books and Serials in Print 1988 R. R. Bowker, 1988 **Planning Advisory Service Report Index**, 1949 **Information Report**, 1949 *Federal Register*, 1980-05-12 **Monthly Catalog of United States Government Publications**, 1980-10 Energy Abstracts for Policy Analysis, 1983 Superconducting Super Collider, 1988 **Achieving Airport-compatible Land Uses and Minimizing Hazardous Obstructions in Navigable Airspace** Jocelyn Waite, 2012 This report discusses airport compatible land use requirements, the legal issues related to achieving airport compatible land use, and legal issues particular to eliminating hazardous obstructions to airspace. The report concludes by reviewing the major legal issues of concern in achieving airport compatible land use. While general legal principles relevant to airport land use are well established, they are often applied on a case by case basis, particularly in the context of regulatory takings and inverse condemnation. This ad hoc analysis introduces, if not an element of unpredictability, at least some variation in the law by jurisdiction. The need for greater predictability highlights the significance of including airport zoning as part of comprehensive land use planning. This report should be helpful to airport administrators, attorneys, board members, financial officers, community members in the vicinity of airports, realtors, and city and county zoning officials.

Strauss, 2015-10-23 Efforts to teach students pursuing graduate degrees in urban and regional planning are often frustrated by the case books that have been prepared for use by law professors teaching similar courses. Dawn Jourdan and Eric J. Strauss have attempted to take their concerns to heart in the design of this *Planning for Wicked Problems: A Planner's Guide to Land Use Law*. Each chapter begins with a planning problem that is complex and has no correct answer. Students should answer this hypothetical before reading the subsequent sections of each of the chapters. The second section of each chapter provides a primer for each topic. This primer is meant to summarize the basic principles of the law and to identify the types of questions relevant to planners when such issues arise. The third section of each chapter includes a series of edited court opinions. The cases selected have been identified by the American Institute of Certified Planners as those fundamental to planning education. Each chapter concludes with an answer to the proposed wicked planning problem.

Planning for Wicked Problems has been written to demonstrate to future planners how the law may be a useful tool in helping them invent solutions to wicked planning problems The book features a companion website for additional study and review     *Missouri River Flood Plain Legal and Institutional Framework Study for Middle and Lower Missouri River Flood Plain Committee, Missouri River Basin Commission by School of Law, University of Missouri-Columbia ; Peter N.
