Alexander The Great A Very Short Introduction Very Short Introductions:

Alexander the Great: A Very Short Introduction Hugh Bowden, 2014-07-24 Alexander the Great became king of Macedon in 336 BC when he was only 20 years old and died at the age of 32 twelve years later During his reign he conquered the Achaemenid Persian Empire the largest empire that had ever existed leading his army from Greece to Pakistan and from the Libyan desert to the steppes of Central Asia His meteoric career as leader of an alliance of Greek cities Pharaoh of Egypt and King of Persia had a profound effect on the world he moved through Even in his lifetime his achievements became legendary and in the centuries that following his story was told and retold throughout Europe and the East Greek became the language of power in the Eastern Mediterranean and much of the Near East as powerful Macedonian dynasts carved up Alexander's empire into kingdoms of their own underlaying the flourishing Hellenistic civilization that emerged after his death But what do we really know about Alexander In this Very Short Introduction Hugh Bowden goes behind the usual historical accounts of Alexander's life and career Instead he focuses on the evidence from Alexander's own time letters from officials in Afghanistan Babylonian diaries records from Egyptian temples to try and understand how Alexander appeared to those who encountered him In doing so he also demonstrates the profound influence the legends of his life have had on our historical understanding and the controversy they continue to generate worldwide ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable [The Vikings: A Very Short Introduction](#) Julian D. Richards, 2005-09-08 The Viking reputation is of bloodthirsty seafaring warriors repeatedly plundering the British Isles and the North Atlantic throughout the early Middle Ages Yet Vikings were also traders settlers and farmers with a complex artistic and linguistic culture whose expansion overseas led them to cross the Atlantic for the first time in European history Highlighting the latest archaeological evidence Julian Richards reveals the whole Viking world their history society and culture and their expansion overseas for trade colonization and plunder We also look at the Viking identity through their artistic expression rune stones their ships and their religion The Viking story is also brought up to date by examining their legacy from the medieval Icelandic sagas to 19th Century nationalism Wagner and the Nazis ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable [Astrobiology: A Very Short Introduction](#) David C. Catling, 2013-10-24 Astrobiologists study the origin and evolution of life on Earth and the possibility of life beyond Earth a question that has fascinated scientists for hundreds of years In this Very Short Introduction David C Catling introduces the latest scientific understanding of astrobiology incorporating aspects of microbiology geology

and astronomy **Shakespeare's Comedies: A Very Short Introduction** Bart van Es, 2016-03-24 From The Two Gentlemen of Verona in the early 1590s to The Two Noble Kinsmen at the end of his career around 1614 Shakespeare wrote at least eighteen plays that can be called comedies a far higher number than that for any other genre in which he wrote So what is a Shakespearean comedy We associate these plays with such themes as mistaken identities happy marriages and exuberant cross dressing but how representative are these of the oeuvre as a whole In this Very Short Introduction Bart van Es explores the full range of the playwright's comic writing from the neat classical plotting of early works like The Comedy of Errors to the corrupt world of the so called problem plays written in the middle years of Shakespeare's life Examining Shakespeare's influences and sources van Es compares his plays to those of his rivals and looks at the history of the plays in performance from the biographies of Shakespeare's original actors to the plays' endless reinvention in modern stage productions and in films Identifying the key qualities that make Shakespearean comedy distinctive van Es traces the changing nature of Shakespeare's comic writing over the course of a career that spanned nearly a quarter century of theatrical change ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Ancient Greece: A Very Short Introduction** Paul Cartledge, 2011-10-27 A highly stimulating Very Short Introduction to the history of Ancient Greek civilization from the first documented use of the Greek language in about 1400 BCE through the glories of the Classical and Hellenistic periods to the foundation of the Byzantine empire in about CE 330 **International Law: A Very Short Introduction** Vaughan Lowe, 2015-11-26 Interest in international law has increased greatly over the past decade largely because of its central place in discussions such as the Iraq War and Guantanamo the World Trade Organisation the anti capitalist movement the Kyoto Convention on climate change and the apparent failure of the international system to deal with the situations in Palestine and Darfur and the plights of refugees and illegal immigrants around the world This Very Short Introduction explains what international law is what its role in international society is and how it operates Vaughan Lowe examines what international law can and cannot do and what it is and what it isn't doing to make the world a better place Focussing on the problems the world faces Lowe uses terrorism environmental change poverty and international violence to demonstrate the theories and practice of international law and how the principles can be used for international co operation **Work: A Very Short Introduction** Stephen Fineman, 2012-11-29 This book examines the social and cultural factors that affect work the ethical consequences of some types of work and the relationship between work and the broader issues of globalization feminism and technology **Romanticism: A Very Short Introduction** Michael Ferber, 2010-09-23 The only short introduction to Romanticism that incorporates not only the English but the Continental movements and not only literature but music art religion and

philosophy publisher description **Reality: A Very Short Introduction** Jan Westerhoff,2011-11-24 What is real has been one of the key questions of philosophy since its beginning in antiquity But it is not just a question that philosophers ask This Very Short Introduction discusses what reality is by looking at a variety of arguments theories and thought experiments from philosophy physics and cognitive science **The Scientific Revolution: A Very Short Introduction** Lawrence Principe,2011-04-28 Lawrence M Principe takes a fresh approach to the story of the scientific revolution emphasising the historical context of the society and its world view at the time From astronomy to alchemy and medicine to geology he tells this fascinating story from the perspective of the historical characters involved **Nuclear Power: A Very Short Introduction** John Maxwell Irvine,2011-05-26 Following the increasing cost of fossil fuels and concerns about the security of their future supply However the term nuclear power causes anxiety in many people and there is confusion concerning the nature and extent of the associated risks **Microscopy: A Very Short Introduction** Terence Allen,2015-05-28 Microscopy is a dynamic area of science incorporating both basic classroom microscopes and sophisticated research style instruments that can be driven by light electrons or X rays The rate of advance in the area over the last 50 years has led to a number of technological advances In this Very Short Introduction Terence Allen an established expert on microscope techniques describes the scientific principles behind the main forms of microscopy and the exciting new developments in the field Focusing on the main underlying principles and introducing the power of what is achievable today using microscopes Allen demonstrates how microscopy impinges on almost every aspect of our daily lives from medical diagnosis to quality control in manufacture Beginning with a brief history of the early stages of microscopy development Allen then concludes with a comprehensive account of the diverse spectrum of microscopy available today ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Intellectual Property: A Very Short Introduction** Siva Vaidhyanathan,2017-02-09 We all create intellectual property We all use intellectual property Intellectual property is the most pervasive yet least understood way we regulate expression Despite its importance to so many aspects of the global economy and daily life intellectual property policy remains a confusing and arcane subject This engaging book clarifies both the basic terms and the major conflicts surrounding these fascinating areas of law offering a layman s introduction to copyright patents trademarks and other forms of knowledge falling under the purview of intellectual property rights Using vivid examples noted media expert Siva Vaidhyanathan illustrates the powers and limits of intellectual property distilling with grace and wit the complex tangle of laws policies and values governing the dissemination of ideas expressions inventions creativity and data collection in the modern world Vaidhyanathan explains that intellectual property exists as it does because powerful interests want it to exist The strongest economies in the world have a keen interest in embedding

rigid methods of control and enforcement over emerging economies to preserve the huge economic interests linked to their copyright industries film music software and publishing For this reason the fight over the global standardization of intellectual property has become one of the most important sites of tension in North South global relations Through compelling case studies including those of Starbucks Coca Cola Sony Amazon and Google Books Vaidhyathan shows that the modern intellectual property systems reflect three centuries of changes in politics economics technologies and social values Although it emerged from a desire to foster creativity while simultaneously protecting it intellectual property today has fundamentally shifted to a political dimension Cryptography: A Very Short Introduction Fred Piper, Sean

Murphy, 2002-05-30 A clear and informative introduction to the science of codebreaking explaining what algorithms do how they are used the risks associated with using them and why governments should be concerned *Modern China: A Very Short Introduction* Rana Mitter, 2016-02-25 China today is never out of the news from international finance to human rights controversies global coverage of its rising international presence and the Chinese economic miracle It seems to be a country of contradictions a peasant society with some of the world's most futuristic cities heir to an ancient civilization that is still trying to find a modern identity This Very Short Introduction offers the reader an entry to understanding the world's most populous nation giving an integrated picture of modern Chinese society culture economy politics and art In this new edition Rana Mitter addresses China's current global position accounting for the country's growth in global significance over the past decade ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Creators, Conquerors, and Citizens** Robin Waterfield, 2018 A fascinating accessible and up to date

history of the Ancient Greeks Covering the Archaic Classical and Hellenistic periods and centred around the disunity of the Greeks their underlying cultural unity and their eventual political unification *God: A Very Short Introduction* John Bowker, 2014-09-25 Who or what is God How do different religions interpret God's existence How can we know God Many people believe in God not just throughout history but also in the present day But who or what is it they believe in Many different and sometimes conflicting answers have been suggested to this question This Very Short Introduction explores some of the answers provided by philosophers poets and theologians and considers why some people believe in God and others do not John Bowker explores how the major religions established their own distinctive beliefs about God and how they interpret God's existence and concludes by looking at how our understanding of God continues to evolve ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **World War**

II: A Very Short Introduction Gerhard L. Weinberg, 2014-11-13 The enormous loss of life and physical destruction caused by the First World War led people to hope that there would never be another such catastrophe. How then did it come about that there was a Second World War causing twice the 30 million deaths and many times more destruction as had been caused in the previous conflict? In this Very Short Introduction Gerhard L. Weinberg provides an introduction to the origins, course and impact of the war on those who fought and the ordinary citizens who lived through it. Starting by looking at the inter-war years and the German invasion of Poland in September 1939, he examines how the war progressed by examining a number of key events including the war in the West in 1940, Barbarossa, The German Invasion of the Soviet Union, the expansion of Japan's war with China, developments on the home front and the Allied victory from 1944-45. Exploring the costs and effects of the war, Weinberg concludes by considering the long-lasting mark World War II has left on society today.

ABOUT THE SERIES

The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

African American Religion: A Very Short Introduction Eddie S. Glaude Jr., 2014-08-27 Since the first African American denomination was established in Philadelphia in 1818, churches have gone beyond their role as spiritual guides in African American communities and have served as civic institutions, spaces for education, and sites for the cultivation of individuality and identities in the face of limited or non-existent freedom. In this Very Short Introduction, Eddie S. Glaude Jr. explores the history and circumstances of African American religion through three examples: conjure, African American Christianity, and African American Islam. He argues that the phrase African American religion is meaningful only insofar as it describes how, through religion, African Americans have responded to oppressive conditions including slavery, Jim Crow, apartheid, and the pervasive and institutionalized discrimination that exists today. This bold claim frames his interpretation of the historical record of the wide diversity of religious experiences in the African American community. He rejects the common tendency to racialize African American religious experiences as an inherent proclivity towards religiousness and instead focuses on how religious communities and experiences have developed in the African American community and the context in which these developments took place.

About the Series

Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology, Politics to Classics, Literary Theory to History, and Archaeology to the Bible. Not simply a textbook of definitions, each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field. Every Very Short Introduction gives a readable evolution of the subject in question, demonstrating how the subject has developed and how it has influenced society. Eventually, the series will encompass every major academic discipline, offering all students an accessible and abundant reference library. Whatever the area of study that one deems important or appealing, whatever the topic that fascinates the

general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

American Slavery: A Very Short Introduction Heather Andrea Williams, 2014-10-06 Europeans Africans and American Indians practiced slavery long before the first purchase of a captive African by a white land owner in the American colonies that however is the image of slavery most prevalent in the minds of Americans today This Very Short Introduction begins with the Portuguese capture of Africans in the 1400s and traces the development of American slavery until its abolition following the Civil War Historian Heather Andrea Williams draws upon the rich recent scholarship of numerous highly regarded academics as well as an analysis of primary documents to explore the history of slavery and its effects on the American colonies and later the United States of America Williams examines legislation that differentiated American Indians and Africans from Europeans as the ideology of white supremacy flourished and became an ingrained feature of the society These laws reflected the contradiction of America's moral and philosophical ideology that valorized freedom on one hand and justified the enslavement of a population deemed inferior on another She explores the tense and often violent relationships between the enslaved and the enslavers and between abolitionists and pro slavery advocates as those who benefited from the institution fought to maintain and exert their power Williams is attentive to the daily labors that enslaved people performed reminding readers that slavery was a system of forced labor with economic benefits that produced wealth for a new nation all the while leaving an indelible mark on its history About the Series Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

Reviewing **Alexander The Great A Very Short Introduction Very Short Introductions**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Alexander The Great A Very Short Introduction Very Short Introductions PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books

and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Alexander The Great A Very Short Introduction Very Short Introductions PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Alexander The Great A Very Short Introduction Very Short Introductions free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Alexander The Great A Very Short Introduction Very Short Introductions Books

1. Where can I buy Alexander The Great A Very Short Introduction Very Short Introductions books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
