**Constructing Blue Collar Leaders in a White Collar World** LaMar Herndon, 2018-03-06 In Constructing Blue Collar Leaders in a White Collar World Dr LaMar Herndon considers a group of leaders often overlooked and occasionally denigrated the bivocational pastor Constructing Blue Collar Leaders in a White Collar World integrates important theoretical leadership concepts with spiritual and practical realities Dr Herndon explores important topics such as trends and issues facing the global church and its leaders leadership models values and ethics character and integrity cultural effects creativity and innovation reverse mentoring and strategic planning This book is a profoundly honest hands on guide to what constitutes a true leader serving as a bivocational minister Dr Gary Oster Regent University School of Business whether bivocational or not Rev Jewel D Williams M R E Church of God Anderson IN Author of Fearfully and Wonderfully Made Living our Theology and the Path of a Preacher **Measuring Spiritual Maturity** Randy Tompkins, 2019-10-21 Jesus commissioned His apostles and by extension the church to make disciples Many church leaders have come to the conclusion that attending worship services and Bible study classes will result in making disciples A review of statistical reports indicates a majority of church members and attenders do not believe this process will work or they have come to the conclusion they do not want to become disciples The 2010 US Religion Census report indicated 79% of the 150 686 156 members children and other attenders did not attend worship services It also reported over 60% of the same group did not attend Bible study classes In 2014 one of the major denominations in the United States reported 63% of church members did not attend worship services and 62% did not attend Bible study classes There are literally thousands of spiritual surveys available to church leaders A

majority of these surveys develop conclusions based on a single survey being administered or two surveys being administered several months apart. If a disciple making process is to be effective there needs to be a method of measuring the progress of individuals moving toward spiritual maturity. This type of measurement would produce a visual of spiritual growth, spiritual decline or spiritual non growth. The only way to measure the spiritual progress of an individual is to create a measurement of the various elements of the spiritual life. The process of measuring spiritual maturity in this book is self contained within the participating church and the responses of the participating individuals are highly confidential and warehoused by the participating church.

*Brazilians in a Promised Land* Jorge William de Castro Abdala, 2022-08-25 There are an estimated of 1.3 million Brazilian immigrants living in the United States approximately 460,000 Brazilian Americans as of mid 2019. The Brazilian population in the United States is relatively small and the lack of knowledge of Brazilian immigrants and the tendency to stereotype based on the perception and assumption has had a negative impact on many Brazilian ministries. There are only thirteen Brazilian ministries within the Presbyterian Church USA and the total number of Brazilians membership within the PC USA is approximately seven hundred people. Some of these ministries have existed for over twenty years but very little information has been given about their existence and experiences. Brazilian ministries that thrive most in the PC USA's body cherish their own identity, understand what those essential factors and keys are and embrace the challenges and opportunities in a cross cultural experience. Every thriving Brazilian ministry is made of people who reflect the image of God in the migration context and plays a unique model to love outcast Brazilians living in this promised land.

It focuses on the quality of the church's life rather than just the numbers attending.
