Gonzalez,2025-03-20 Now that cinema is offline and online the capacity of cinema to relate to philosophy and science has increased In this regard this book seeks to deepen the relationship between philosophy science and cinema in terms of bilaterality This analysis leads to several successive levels of analysis First between philosophy and cinema where the philosophical perspective bifurcates in several directions depending on the philosophical branch used This affects in both directions from the philosophical orientation to the cinematographic activity and from cinema towards the philosophical line used Second the relations between science and cinema also go in both directions Thus they are modulated by the type of scientific research used and by the film genre employed Thus bilaterality is altogether a network of bidirectional relations
